

Name: _____ ID: _____

Subject: Medical Biology(Quiz 3, Form E)

Choose the correct answer:

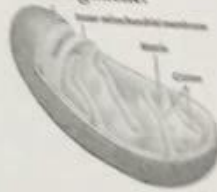

1- A fluid between plasma membrane and nucleus is called _____ (5 marks)

- a- Central vacuole
- b- mitochondria
- c- chloroplasts
- d- cytosol

2- Example of Eukaryotic cells as in _____

- a- animal and plant
- b- bacteria
- c- archaebacteria
- d- b&c

3- What is the name of this organelle:

- a- RER
- b- SER
- c- mitochondria
- d- lysosome

4- Sperm moves by _____ while fallopian tubes lined by _____

- a- cilia / cilia
- b- cilia / flagellum
- c- flagellum / flagellum
- d- flagellum / cilia

5- Hydrolytic enzymes found in an organelle called _____

- a- RER
- b- SER
- c- Nucleus
- d- lysosome
