Creativity encourages us to express ourselves and we all use it in different ways. There are many benefits to using creativity. It allows us to take risks and to be free. It also helps us to know ourselves better when we use our thoughts and feelings to create something. The more we use creativity, the more confident we become and begin to appreciate our work. Another one of its benefits is relieving stress. Using our minds, hands and energy is very enjoyable. In addition, it prepares us for facing challenges and helps us become better problem solvers. Here are some simple ways you can improve your creativity: try to make tasks more fun, change a certain habit, spend more time in nature, start a new hobby and expose yourself to different forms of art. Overall, creativity makes life more interesting, and humanity wouldn't be where it is today if it wasn't for the ideas of great thinkers and innovators.

Most of us know that the highest mountain in the world is Mount Everest. But something that most of us don't think about is the deepest point on Earth! It is called the Mariana Trench and it is in the middle of the Pacific Ocean.

The lowest lake – interestingly not called a lake at all, but a 'sea' – is the Dead Sea. The water in the Dead Sea is also the saltiest in the world. Hardly anything can live in it, except simple organisms like green algae.

Most people think that a desert is a hot, dry, sandy place, but in fact, any place that receives hardly any rainfall can be called a desert. And that makes Antarctica the world's largest desert – even though it is covered in ice. It is also the world's highest, windiest and coldest continent.

On the other extreme, the world's hottest temperature ever recorded was in 1922, in El Azizia, Libya – the temperaturesa

frightening 57.8° C!
