## ٢- كيف نحدد الفعل المساعد؟

إذا كان زمن الجملة حاضر نستخدم do/does

إذا كانت ماضي نستخدم did

باقي الأزمنة نستخدم الفعل المساعد الموجود بالجملة is/am /are/was/were/ has/have

باختصار فقط مع الزمن الحاضر و الماضي البسيط نحتاج تحديد فعل مساعد باقي الأزمنة نستخدم نفس الفعل المساعد الموجود بالجملة

## في حال كان الجملة تبدأ بـ Yes/No

لا نستخدم كلمة سؤال... نبدأ السؤال مباشرة بالفعل المساعد

Does he play football every day?

Yes, he play football every day

No, he doesn't play football every day

Did he buy a new car ?

Yes, he bought a new car

No, he didn't buy a new car

Is the baby sleeping now?

Yes, the baby is sleeping now

No, the baby isn't sleeping

لاحظ بدانا السؤال بالفعل المساعد

بحالة النفي No طبعاً نستخدم الفعل المساعد بالسؤال دون نفي لاحظ الامثلة اعلاه .

## بعض صيغ الاسئلة الخاصة

-السؤال عن العمل او المهنة

What is her job? She is a teacher

What does she work ?She is a teacher

-السؤال عن المظهر والشكل

What does he look like ?He is tall and slim

-السؤال عن الشبه

Who does he look like? He is like his father

- السؤال عن الصفات الشخصية ( كريمة مرح قوي نشيط ..الخ)

What is he like ? He is generous and honest

## تكوين السؤال

يجب ان نحفظ هذا الترتيب

كلمة السؤال + فعل مساعد + فاعل + فعل + بقية الجملة

## ١- كيف نحدد كلمة السؤال ؟

حسب الكلمة التي تحتها خط بالجملة

where اذا كانت مكان

when اذا كانت وقت

what time اذا كانت ساعة محددة

who اذا كانت اسم شخص و السؤال عن الفاعل

Who ate the apple? Omar ate the apple

نلاحظ ان فقط وضعنا Who بديل الفاعل

Why اذا كان السؤال عن سبب

what اذا كان السؤال عن الفعل

وهنا نلاحظ ان نستخدم do بديل الفعل الاساسي بالجملة لان

السؤال عن الفعل و يتبدل شكلها حسب زمن الجملة الاساسي

what does he do? ( حاضر )

What do you do ?

What did he do? ( ماضي )

What is he doing now? ( حاضر مستمر )

What are they doing?

What were they doing? (ماضي مستمر)

What has he done? (حاضر تام)

ماذا كانوا يفعلون ؟ what had they done? ( ماضي تام )

How many /How much اذا كان الخط موضوع تحت كلمة تدل

على عدد او كمية

How much غير محدود

How many محدود

نكتب وراءها اسم الشيء الذي نسال عن عدده او كميته

How many pencils are there on the table?

How much sugar do you want?

الفعل المساعد يكون حسب زمن الجملة

Which نستخدم للاختيار

Which kind of fruit do you prefer?

I prefer Mango

Which sport do you like tennis or basketball?

I like tennis

How often

كم غالباً ؟ اذا كان الخط موضوع تحت دلالة زمنية تعبر عن عدد

مرات قيامنا بفعل معين

How often do you play tennis?

I often play tennis every Friday

How old للسؤال عن العمر

Whose اذا كان السؤال عن ملكية

Whose car is this ? This is Omar's car

what colour اذا كان المطلوب السؤال عن اللون

What colour is her new car?

Her new car is black

Hanan Al-Hroub was a poorly paid teacher in the West Bank. Then she won the \$1 million Global Teacher Prize. The committee praised Mrs. Al-Hroub's "play and learn" method, which she still employs. Besides her clown outfit, Mrs. Al-Hroub uses balloons, hula-hoops, toy cars and puppets to explain her lessons. Her aim is to make the classroom a calm and fun place where children can forget about the struggle of daily life, and open their minds. "We play first, and when we play we learn," she said. "The kids don't even realise they are learning." In addition to the toys and balloons, which she pays for with her own money, she uses videos and even PowerPoint in the classroom. For the first month of a new school year, her eight-year-old pupils may not even see an exercise book. Parents often refuse the focus on play. That soon changes, Mrs. Al-Hroub says, when they realise that her methods improve behaviour – especially in troubled kids – and academic results. She also sees it as her duty to build their characters. "No to violence" is a motto in her classes. Mrs. Al-Hroub plans to establish her own foundation and use some of her winnings to train other teachers to follow her approach. It is worth mentioning that Mrs. Al-Hroub's dream was to be a doctor but failing to do so did not prevent her from being a special person who could make a difference.

## Revision unit 1

Grade 9

**B- Read the following text , then decide if these statements are true or false.**

One day, an unemployed man went to apply for a job with Microsoft as a cleaner. The manager said: "Let me have your e-mail address, so that I can send you a form to complete and tell you when you can start." The man said that he had no computer or email address. The manager: "Well, then, that means that you virtually don't exist and therefore can't be employed." The man looked at the last £10 in his wallet and thought of buying tomatoes in bulk. Within less than 2 hours, he sold all the tomatoes at 100% profit. Repeating the process several times that day, he ended up with almost £100 before going to sleep that night. Getting up early every day and going to bed late, he multiplied his profits quickly. After a short time he bought a cart to transport several dozen boxes of tomatoes. By the end of the second year, he became the owner of a fleet of trucks and the manager of a staff of a hundred former unemployed people, all selling tomatoes. Planning for the future of his wife and children, he decided to buy life insurance. An adviser asked him for his e-mail address in order to send the final documents electronically. When the man replied that he has no e-mail, the adviser felt astonished and said: "How did you make such wealth without Internet and e-mail? Just imagine where you would-be now, if you had been connected to the internet from the very start!" "After a moment of thought, the tomato millionaire replied. "I would be a floor cleaner at Microsoft!" Even with the lack of technology, with determination and the required skills one can make a difference.

- 6-He didn't succeed to have a job with Microsoft because he had no email.( )

Light Initiative started with two people and now it includes more than 350 volunteers. They voluntarily record school and college books for the benefit of the visually impaired people. They started recording the books of the 9th and the 12th grades; they also record university books and references. Their aim is to meet the visually impaired people's actual needs whatever they are. Usually, the visually impaired person who has the desire to study a curriculum or a reference, contacts the initiative administration and provides them with the books needed. Then, the book is divided into tasks for a number of volunteers to record them.

They use a Facebook page and a YouTube channel. On the Facebook page they announce that they finished this book or this curriculum, and they use the YouTube channel to publish the recordings. These records are saved in mp3 format. Their services are absolutely free; i.e. the volunteer is not paid, and it doesn't cost the visually impaired person anything. Anyone with a network can have access to their records. Volunteers need very simple things. They use mobiles for recording and laptops to do the montage. No professional tools are needed. Light Initiative's new project is turning the Syrian curriculum into Braille. This will help Syrian students who suffer from sight problems. Light Initiative is trying to bring some light into the visually impaired people's lives.

**Revision unit 2**

Grade 9

**B- Read the following text , then decide if these statements are true or false.**

On March 27, 2013, John Sweeney, a plumber from Ireland, started a Facebook page called Suspended Coffees. His message was simple: Buy a cup of coffee for a stranger, because an act of kindness can change a life and make a difference. Eight hours later, the page had attracted more than 20,000 likes. Suspended coffee is a tradition that comes from Naples, Italy, and dates back to the 20<sup>th</sup> century. When customers buy coffee, they also pay in advance for a cup to be given to somebody else; usually someone who otherwise couldn't afford it. This initiative was forgotten, but then it revived again in 2011. That's when "Suspended Coffee Day" started to be celebrated each December. You can buy it for anyone in need. It can be for the homeless person you pass by every day on the street, a stressed student in the middle of exams, a mother of children who can't afford coffee. It may be a well-dressed man whom you may not think from his appearance that he's in need but he may be in his third month of job hunting. It's not up to us to judge – if someone asks, then they're in need - no CV required.

Life in the future will be very different. Futurologists predict that life will probably be very different in all the fields of activity, from entertainment to technology. Some people have imagined that life in the future would be so easy and relaxing, while others have seen that it would be worse and more difficult. I think that in the future we will have a more comfortable life. This will be obvious in all aspects of life. First, as for education, people will have better education because of technology. E-books will replace traditional books, robots will replace teachers, and students will not have to go to schools every day as they will study at home through on-line teaching. So even absent students will learn. Second, health will improve. Technology will also play a very important role in that. New medicines will help people get better. Robots will help doctors and sometimes replace them. Add to that, scientists and researchers will find cure to many diseases like Aids and cancer. So people will live longer. Third, housing problems will end. People will build houses everywhere. So everyone will have a place to live in. Fourth, hunger will come to an end. People will grow new types of crops everywhere even on the roofs of buildings. Fifth and last, world peace will spread because of all the previous aspects. The world will have nothing to fight for. Everyone will have education, health, home and food. So everyone will be happier and love will be everywhere..

- 1- How does the writer see the future?  
**a-Life will be worse and more difficult.**  
**b-Life will be more comfortable.**  
**c-There will be no life.**  
**d-Life will be not easy.**
- 2- Pupils will study at home through.....

**B- Read the following text , then decide if these statements are true or false.**

Someday people will live in space. By the end of this century, there will be permanent settlements that will allow people to lead a normal life in space. Hundreds of astronauts are going to work and live in the space station, which will take ten years to build. In some way, living on the moon will be easier than living in a space station and it will be cheaper because people won't bring everything from the Earth by rockets. The space city will be like a gigantic glass wheel that will contain buildings, factories and special meeting places. Inside it, people won't live differently from small towns on the Earth. It will have air so that inhabitants can breathe and they won't need to wear special space-suits inside the buildings. Scientists also believe that they will obtain water from a large ice lake on the moon. People won't have to do housework because robots will do that for them. Food won't be a problem, as settlers won't need to eat. Instead, they will take a pill three times a day.

We are experiencing a technological progress every month now. The world is changing and the changes are very dramatic. Imagining future cities with modern technology appears as a dynamic solution to society's recent problems. Some recent researches have suggested that we need to think about the way we imagine future cities, and to focus on some forms of alternative energy such as solar power, wind power, and water power which lead to environmental sustainability. We need to answer questions about what can be sustained and what cannot, where cities can be located and where they cannot, and how we might travel in and between them and how we can physically live and work together. We may want our future cities to prioritize environmental renewal. We need to prevent environmental degradation and stop the expansion of deserts. Future cities can collect water and use solar power to irrigate the dry land. Future cities should be surrounded by rivers and provided with renewable energy resources and green vehicles heading towards more ecological forms of public transport. Imagining these cities helps us understand how we want our future lives and tomorrow's world to look like. It will be better to rethink about our health, other species and the planet we share.

**B- Read the following text , then decide if these statements are true or false**

Some people think that autonomous vehicles will change our lives for the better. They think that they will be safer and transportation will be more efficient. However, others believe that autonomous vehicles will cause many problems that need to be solved before they are allowed to become a part of our daily lives. First, driverless cars will increase unemployment. Thousands of drivers will lose their jobs if autonomous vehicles are allowed to take over the roads. Truck drivers, delivery drivers, taxi drivers and many other kinds of drivers will lose their jobs. This increase in unemployment could cause serious social problems. Second, companies and governments will lose money. For example, insurance companies now get about fifty percent of their income from car insurance. Governments and cities, too, will lose much money from parking, speeding fines and petrol taxes. Finally, there is no planning. Dramatic change is coming, but governments haven't begun thinking about it. Only some American cities have done long-term planning. Driverless cars could arrive by 2030, but most government officials and transport ministers are only worried about short-term problems. In conclusion, it is possible that autonomous vehicles will not benefit society if they are introduced too quickly. They may cause social chaos through unemployment, financial loss and lack of planning. It is important that these issues are addressed before autonomous vehicles are allowed on our roads.

- 6- Autonomous cars will be safer and more efficient (    )
- 7- Driverless cars will increase the employment.(    )
- 8- Insurance companies get a lot of money from car insurance.(    )
- 9- Only some American cities have done short-term planning.(    )

Decision making is an on-going process in every aspect of life, large or small. The ability to make a decision and stick to it is the cornerstone of good leadership skills. Before taking a step, we must try to see where possible potholes are. The decision-making tools help you to map out all the possible alternatives to your decision, its chances of success or failure. So to make a decision, you must first identify the problem you need to solve or the question you need to answer. What also prevents effective decision-making is when you do not have enough information about your decision. In this case you are making a decision without any basis. Teamwork helps you to make the right decision. You must collaborate with your family members and classmates, at some point, to make your right decision. Time management is very important; since decisions need to be made quickly sometimes, you have to outline the amount of time you have to make your decision.

1- Decision making is an on-going process in ..... aspects of life .

- a-only one**                      **b-a few**  
**c- some**                        **d- all**

**B- Read the following text , then decide if these statements are true or false.**

Sam walked into a cake shop, after he'd finished his work, to buy his daughter a birthday cake. It was about four o'clock and the store usually closes at five. So he should make his mind quickly and decide what he should buy. The cakes looked very delicious and tasty so it was difficult for Sam to choose. Time was passing but in vain. Sam couldn't decide yet, when he heard the chef saying "Come on. Hurry up, please, we are about to close the store." Sam's eyes kept moving from one refrigerator to another, but all of the options looked so good and he couldn't make a decision yet. "Try to be quick Man, make up your mind, we have to close," the impatient chef said. Suddenly, the chef had enough and asked Sam to leave immediately. Sam walked out of the shop empty-handed feeling depressed and frustrated. He wanted them all, but ended up with nothing because he couldn't choose any. Think of what happened to Sam. It's just that we're all Sam and the world is that cake shop. We have extremely large numbers of options available to us, but if we don't make a decision, we end up empty-handed. Sometimes we worry about making the wrong decision. What if we regret the direction that we take and it's too late to go back? The real danger is that we make no decision at all and end up going nowhere and doing nothing.

6-Sam had much time to choose and decide .( )

7-The chef was impatient because he wanted to close the shop.( )

8-Sam left the shop feeling satisfied . ( )

One day Thomas Edison came home and gave his mother a letter from his teacher. As she read the letter, his mother's eyes were tearful. Thomas Edison's teacher wrote that Edison was mentally ill and wouldn't be allowed in school anymore. When Edison asked his mother what this letter was about, she pretended to read it aloud, saying your son couldn't go to school because he was a genius and the school was too small for him. "Please teach him yourself." Edison's mother hid the letter and decided to educate young Thomas at home. Edison was homeschooled by his mother's decision; he wasn't able to memorize lessons and needed hands-on experience to understand and learn things. Edison's mother wasn't frustrated; she wanted Edison to be a scientist. He grew up and set up a laboratory at home and began his own experiments. He also set up his own telegraph station and sent out messages by using a train whistle.

At the age of 30, Edison invented the phonograph. His work in a number of fields created the basis for many technologies that we enjoy today. However, like anyone else, he suffered through failure numerous times, but where others quit, he persisted.

After his mother's death, one day Edison found the hidden school letter, cried for hours and then he wrote in his diary, Thomas Alva Edison was a mentally ill child that, by a hero mother, became a genius. Edison said: "My mother was a great woman, she believed in me and made me one of the greatest inventors".

**A- Read the following text , then choose the correct answer a, b, c, or d.**

Research suggests that our level of happiness depends partly on factors we cannot control – our genes and our life circumstances. However, our level of happiness is also shaped by the choices we make.

If you've been chasing wealth, fame, good looks, material things, and power, you may be looking for happiness in all the wrong places. People who form close relationships tend to be happier than those who do not. The number of friends we have is not important. What matters is the quality of our relationships. People who make a habit of caring for the well-being of others tend to be happier. This might involve volunteering for an organization or reaching out to support friends and family on a regular basis. When we are so interested in an activity we enjoy that we lose track of time, we are in a state of flow. The activity could be making art, playing piano, surfing, or playing a game. People who experience flow in their work or hobbies tend to be happier. People who think positively by being grateful, aware, and optimistic are more likely to be happy. Being optimistic means being hopeful about the future.

1- What are the factors of happiness people can't control?

- a- Our genes and our life circumstances.  
b- Our relationships .  
c- Our jobs  
d- Our decisions

2- What would be a way of caring for the well-being of others?

- a- Exercising regularly  
b- Volunteering at a home for old people.  
c- Being optimistic  
d- Practicing yoga or meditation

3- What is important about relationships?

- a- The number and quality of your friends  
b- The number of your friends  
c- The quality of your friends  
d- The names of your friends

4- When are people in a state of flow?

- a- When They are forced to do what they don't enjoy  
b- When they love what they do  
c- When they feel frustrated about what they do  
d- When they hate what they do

5- Optimistic means.....

- a-fearing the future  
b- focusing on bad situations  
c- thinking that good things are more likely to happen  
d- thinking that bad things are more likely to happen

**B- Read the following text , then decide if these statements are true or false**

Today is the second day of my trek around Mount Annapurna. I am exhausted and my legs are shaking; I just hope I am able to complete the trek. My feet are really killing me and my toes are bleeding, but I still want to continue. Nepal is a fascinating country, but I have a great deal to learn. Everything is so different, and I am trying to adapt to the new way of life here. I've learnt a little bit of the language to make communication easier; unfortunately, I don't learn foreign languages quickly. Although I have not understood much yet, I believe that I will improve gradually. I am currently travelling with Liam, a student from Leeds University in England. He is a nice guy, but impatient. He always walks ahead of me and complains that I am too slow. I am doing my best to keep up with him, but he is younger and stronger than I am. Maybe, I am just feeling sorry for myself because I am getting old. Right now, Liam is sitting with the owner of the inn. They are discussing the differences between life in England and life in Nepal. I don't know the real name of the owner, but everybody just calls him Tam. Tam speaks English very well and he is trying to teach Liam some words in Nepali. Every time Tam says a new word, Liam tries to repeat it. Unfortunately, Liam also seems to have difficulty learning foreign languages. I just hope we don't get lost and have to ask for directions.

Someday people will live in space. By the end of this century, there will be permanent settlements that will allow people to lead a normal life in space. Hundreds of astronauts are going to work and live in the space station, which will take ten years to build. In some way, living on the moon will be easier than living in a space station and it will be cheaper because people won't bring everything from the Earth by rockets. The space city will be like a gigantic glass wheel that will contain buildings, factories and special meeting places. Inside it, people won't live differently from small towns on the Earth. Food won't be a problem, as settlers won't need to eat. Instead, they will take a pill three times a day.

**A- Read the following text , then choose the correct answer a, b, c, or d.**

Our grandparents thought they were lucky because they could travel by car and they could see films at the cinema. Now, we think we're very lucky because we have machines that can do the jobs we hate, like washing up or cooking. But in just a few years we will have more spare time because robots could be doing almost any job in our homes, including cleaning, washing, gardening and mail delivery. Within a few years, we will all be able to watch 3D television without special glasses. We will be able to buy 'smart' clothes which can control our temperature, keeping us cool in the summer and warm in the winter. By 2025 we could see the end of traffic jams and road accidents: cars will drive themselves along 'smart roads'. Some people predict that we will even be able to buy flying cars.

**1- Why did our grandparents think they were lucky ?**

- a-They lived a very simple life.
- b-They enjoyed some early technological inventions .
- c-They didn't have to worry about technology.
- d-They had machines that can do the jobs they hate.

Amy Johnson was born in 1903, in the north of England. After university, she worked as a secretary in London where she became interested in flying, and in 1928 she started flying lessons. At first it was just a hobby, but soon Amy became serious about flying and decided to become a professional pilot. At this time, flying was a man's world, so there were very few women pilots.

In 1930, she decided that her real ambition was to fly solo to Australia. Her father and a businessman bought a plane for her and, on May 5, 1930, Amy set off alone in her single engine. When World War 2 broke out in 1939, Amy joined a group of experienced pilots who had to fly new planes from the factories to airports all over Britain. On one of these flights, on January 5, 1941, Amy's plane crashed into the River Thames. The people who found the plane discovered that the fuel tank was empty. At the age of 38, Britain's most famous woman pilot was dead.

- 6-Flying was just a hobby for Amy at first.( )
- 7-She started flying lessons in 1930.( )
- 8-Her first flight was to Australia . ( )
- 9-At that time it was not strange for a woman to be a pilot.( )

In 1912, the "Titanic" hit an iceberg on its first trip across the Atlantic. The Titanic was the largest ship that had ever travelled on the sea. It was carrying 2207 people, but it had taken on enough lifeboats for only 1178 people. Not more than 651 of the passengers were able to get into lifeboats. Some of the **survivors** had been in the icy water for hours when they were saved. Most of the passengers hadn't lived long; 1502 people had lost their lives. But why was there such a great loss of life and so few survivors who were on the edge of death? Nobody had prepared for such a tragedy. Nobody had believed that the Titanic could sink. The steamship company had thought that its ship would be completely safe in all situations. They had followed an old rule for the number of lifeboats, so they had supplied lifeboats for only half the people. The passengers had not yet received their lifeboat numbers, nor had they practiced lifeboat drill before the accident. Many of them had not even dressed warmly, the ship had hit the iceberg late at night, and they did not believe they were in danger. The ship had already received 6 ice warnings on its radio when it struck the iceberg. Nevertheless, it had not changed its direction or its speed. A tragedy like the sinking of the Titanic should never happen again

**1-** The Titanic was carrying .....on its first trip.

- a- some people
- b- a large number of people
- c- a few people
- d-less than 2000 people

**22-** The steamship company had thought that its ship.....

- d- Many of

**4-**They have supplied life boats for.....

- a- all the passengers
- b- half of the passengers
- c- 651 of the passengers
- d- 6 of the passengers

**5-** The word " survivor " means .....

- a- a small boat to save people on board if the ship sinks
- b- warning
- c- large mass of ice floating in the sea
- d- a person who continues to live after danger

**B- Read the following text , then decide if these statements are true or false**

Frane Selak was born in Croatia in 1929. He led a relatively unremarkable life as a music teacher. Selak's near-death experiences began in January 1962 when he was travelling by a train from Sarajevo to Dubrovnik. The train left its railway tracks and ended up in a river. Fortunately, an unknown person pulled him to be safe, while 17 other passengers drowned. The next year, Selak boarded a plane from Zagreb to Rijeka. Unfortunately, he was blown out of its door and luckily landed in a haystack; the plane crashed, killing 19 people but Selak survived. Three years after that, in 1966, he got on bus. The bus skidded on the road and fell into a river, drowning four passengers, and by sheer luck Selak swam to the shore with only a few cuts and bruises. In 1970, the fuel in his car's tank exploded on the motorway. But Selak just escaped with his life. The final famous disaster was in 1996 when a truck came barreling towards his car as he was driving around a mountain road. Selak was ejected from the car but he managed to hold onto a tree, and watched his car in horror plummet down. In 2003, two days after his 73rd birthday, Selak won the lottery in Croatia. With this, he bought a luxurious home. Then he changed his mind, sold it in 2010 and lived a humble life with his fifth wife. What happened to Selak seems to be far more dramatic than anything Hollywood could **cook up**.

- 6- Selak was a music teacher.(    )
- 7-Selak had survived 5 disasters .(    )
- 8-His near-death experiences happened between 1929 and 1996.(    )

A poor family was living happily until the son felt severely ill. It was clear from the medical analysis and laboratory tests that he had got a tumour in his head. "Your son's condition is critical. He needs a miracle to survive.", the doctor said. After she had heard the doctor's words the little daughter rushed to the nearest pharmacy with the only pound she had in her money box. "Give me a miracle, please," she said putting the pound on the table. The pharmacist was busy talking to his brother. After a while he replied, "who told you I sell miracles?" She looked helplessly watching in despair. Suddenly the pharmacist's brother kneeled asking her, "tell me, sweetie, why do you need a miracle?" Without thinking, "I don't know, the doctor says my brother needs a miracle for an operation not to die. "Is this pound enough?" "One pound is exactly enough", he answered with a big smile and a tender voice. "Could I see your brother?" This man was Carlton Armstrong, the famous nerve surgeon who performed the operation successfully and took one pound for it. Later, he framed the pound with a sentence below, "This pound is the price of a miracle taken from a girl, on the edge of innocence."

**B- Read the following text , then decide if these statements are true or false**

A selfie is a self-portrait photograph, typically taken with a digital camera or a smart phone, which may be held in the hand or supported by a selfie stick. Selfies are often shared on social media services such as Facebook, Twitter, Snapchat, and Instagram. When Marat Dupri bought his camera, he decided he would shoot nice landscape pictures. Feeling it might not have been the most original idea ever, he started to spice things up by climbing up higher and higher structures, using no safety equipment at all. Marat Dupri earned the name of "The sky walker"; and quickly, dozens of people followed his footsteps, trying to get the most incredible views. Then most people began to take dangerous selfies while travelling. They began scaling skyscrapers, cliffs and bridges to capture a photo to remember. Almost everyone has taken out their smart phones to snap a photo of themselves. But many studies showed that when taken in dangerous circumstances, selfies can cause death. This Instagram shot was taken by Angela Nikolau, from Tianjin, China. Some might even say "It's too dangerous". How did she even get there?! This is also one of many pictures snapped by Daniel Lau, one of the world's most well-known photographers. In this photo, the skyscrapers of Hong Kong set the shocking scene. At last, we can say that this kind of art seems to have been lost somewhere between the ground and the sky. Be careful not to spoil this art and use it for lovely memories and beneficial issues. Take care of yourselves and other people around you. Putting yourselves at risk is useless; it sounds to be a crazy idea. Our lives are very precious and valuable. We shouldn't lose them by irresponsible behaviours

Mariam was a teacher who wanted to motivate her students and make them do their best in the exam. So, she told them that she would give a gift, which was a new pair of shoes, to the one whose marks would be excellent. Children rejoiced over this challenge and they all started writing diligently. After collecting the papers, the teacher was surprised to find that everyone had a full mark. Who would get the gift? she thought. The teacher thanked everyone for their effort but she was confused about who would deserve the award as everyone had got the full mark. The teacher thought of a suitable solution with her students. The students' opinion was that each of them would write his/her name on a folded paper and put it in a box from which the teacher would pick one. So, the paper will reveal the name of the award's winner.

Indeed, the teacher picked a paper in front of all students and read the child's name [Nada], and said: "you are the owner of the award". With joy and tears in her eyes, Nada came forward where the shoes were. She thanked everyone for this wonderful gift. Her parents couldn't afford to buy her new shoes because of their extreme poverty. The teacher returned home crying and told her husband what had happened. Suzan is an orphan whose father died when she was a baby. Before his death, he had a strong will of taking care of Suzan and encouraging her to study hard. After her husband's death, the mother worked hard to make her daughter feel comfortable and tried to afford her all what she needed. At night, before they sleep, the mother tells Suzan how much it is important to be a responsible citizen who respects the principles of the country. She encourages her daughter to be a productive member of society and a person who makes a positive contribution to the nation. The mother also clarifies the necessity of developing her daughter's character to be strong and effective in society. She tells her that she must understand her legal rights as well as her duties. Suzan is sure that life is difficult when you cannot have what you want. But she has learnt from her mother to fight till the end. She always says: "when we don't have what we like, we must like what we have". Suzan, who is now 15 years old, works hard to achieve her dreams. She loves reading so she spends her free time in the school library reading about her country's history and social studies. She studies a lot because she believes that what is hard today, will be easy tomorrow and what is black tonight will be white in the morning. She shares her skills, talents, and abilities with others. On holidays she participates in the social activities of her city and looks for ways to make her community a better place to live in. She also urges people of her age to work for welfare services.

Once, a king and a lazy man named Hani were very good friends. One morning, the king said, "Why don't you work to earn some money?" Hani said, "No one offers me a job. My enemies told everyone that I never do any work in time." The kind king said, "You can go into my treasury and collect as much wealth as you can, but you have to finish before sunset." Hani was so happy and rushed home to tell his wife. She said,

"Go and get the gold coins and gems now." He said: "I cannot go now. I am so hungry. I'd like to eat first." After lunch, he took a nap for an hour. Then in the late afternoon, he picked some bags and went to the palace. On the way, he felt hot so he sat under a tree to rest and drink some water. Two hours later, when he wanted to move on, he saw a man showing some magic tricks. He stopped to watch for an hour again. On the way to the palace, he met an old friend and chatted with him for some time. When he reached the palace, it was already sunset time. The palace gates had been shut. Hani lost a golden chance because he had not learnt the value of time. If Hani worked hard, he wouldn't be poor. This story teaches us that once time is spent, it will never come back.

**B- Read the following text , then decide if these statements are true or false**

Time is precious! We should never waste it in any way. People can spend a lot of time doing various things, but they can never get back the time they had spent. That is why most of successful people consider time more important and valuable than money. We all should use our time in productive ways. If you master the technique of managing time efficiently, you can achieve anything in your life. Time management helps you to attain more with less effort. In the beginning, it will feel like a boring task, but when you do it regularly, you realize that it only helps you to increase your productivity. Eventually, this will encourage you to achieve more in life. Being productive doesn't mean that we have to be involved in multiple tasks at the same time. The proverb, "killing time is not a murder; it's a suicide" is applicable for those who don't understand the value of time and don't respect it. People who say that they don't have enough time to complete their work, don't really know how to manage time. Time is the greatest gift of God. Therefore, we should know how to invest it.

**A- Read the following text , then choose the correct answer a, b, c, or d.**

The wish to communicate with the outer space has always been there in our minds. As the 20<sup>th</sup> century began, interest in the possible life on Mars and the possible civilizations there led to a search for signals. An example of how we might receive communications from the planet was mentioned in 1896 when a newspaper article entitled "A Signal from Mars" had offered one. In the late 19<sup>th</sup> and early 20<sup>th</sup> centuries the idea of wirelessly sending and receiving waves through the air, was developed. New methods of searching for communications from space were offered too. In 1901, engineer Nicola Tesla made the astonishing claim that he was receiving radio communications from Mars. His story was picked up and reported in the press. The Media was captured by the idea of communicating with Mars but it did not find much serious interest from scientists. In the 1960s a number of other scientists began searching for signals showing the existence of another life elsewhere in the universe. As it became increasingly clear that there was no intelligent life on other planets in the solar system, it became possible to detect signals from much farther away. Radio signals were detected to look for life or civilizations out in the galaxy but none was proved.

**B- Read the following text , then decide if these statements are true or false**

Have you ever been inspired by someone to change your life in a significant way that made you healthier, happier, or more fulfilled? If so, then you understand how inspiration can create a positive difference in a person's life. Inspiration is powerful. If you want to be positive and capable of inspiring others, here are some tips to follow.

- Show people you care. Remember how many times your day was changed by questions like "How are you today?" or "Is everything going well with you?" said by a friend. Your actions are very important too. Many people's lives are inspired by small acts of kindness.
- Earn trust. If you are told a secret by a friend, it stays between you and him/her. Trust takes a long time to be built, but in many cases it can be destroyed in no time.
- Keep your promises. If someone is being helped by a volunteer, he/she needs to do it with a smile. Life has many examples of promises that are kept to save many people's lives. Therefore, you should be wise enough to keep your word no matter what it takes.
- It is easy to criticise people, but that doesn't mean it's the right thing to do. Think about it: "How did you react when your intelligence was being once insulted by someone? Or, if your clothing, or your performance had been criticised in a negative way?" Whether the criticism was justified or not, sure you would get upset. No one likes to be criticized, so if you don't have anything positive to say, don't say it at all.
- Be an active listener. Words other people say can be heard, but not many people can actively listen to and comprehend those words to fully understand the meaning behind them. Make an eye contact if someone talks to you about their problems, and ask follow-up questions to show them you care.

- 6- Inspiration can make you healthier, happier or more fulfilled .(     )
- 7-To make people trust you , you should keep their secrets. (     )

**A- Read the following text , then choose the correct answer a, b, c, or d.**

Body language refers to the nonverbal signals that we use to communicate. According to experts, these nonverbal signals make up a huge part of our daily communication. From our facial expressions to our body movements, the things we don't say can still convey volumes of information. Happiness, sadness, anger, surprise, disgust and fear are just a few examples of emotions that can be expressed through facial expressions. The expression on a person's face himself can even help determine if we trust or believe what he/she is saying. Facial expressions are also among the universal forms of body language. The expressions used to convey fear, anger, sadness, and happiness are similar throughout the world. The arms and legs can also themselves be useful in conveying nonverbal information. Crossing legs away from another person may indicate dislike or discomfort with that individual. Crossing the arms can indicate defence, being self-protective. Clasp the hands behind the back might indicate that a person is feeling bored, anxious, or even angry. Rapidly tapping his/ her fingers can be a sign that a person is bored, impatient, or frustrated. Crossed legs can indicate that a person is feeling in need of privacy. So when you are evaluating somebody, pay attention to the body language, which could tell many unspoken words. Some research suggest that deaf people may be especially skillful at picking up visual traits in the actions of others through their body language because they are trained on using sign and body language.

**B- Read the following text , then decide if these statements are true or false**

Language is considered a very complex form of communication that occurs among humans who use words while talking to express their needs and they cry and make faces when they want to express feelings. Animals also show signs of communication such as a bird singing a song or a dog wagging its tail when excited. However, do animals have their language? Scientists are still unsure about this question. Researchers say that animals do not have a true language like humans. However, they do communicate with each other with sounds and gestures. Children show these same forms of communication as babies when crying and gesturing, but they slowly learn the words of language and use them as a form of communication. So what about animals such as dogs that understand commands or birds that can "talk"? Dogs can be trained to follow certain commands such as "sit", "come" and "roll over", but does this mean they understand language and use it as well? Dogs are known to be experts at reading their owner's intentions and that they do not respond to actual words but the tone in which it is said. There is no doubt that animals communicate with each other to one degree or another in response to different motivations such as hunger or fear. Human language is creative and consists of unique characteristics that give us the ability to engage in intellectual and logical ways. However, it can be said that although animals do not have a true language like humans, they can still communicate

**B- Read the following text , then decide if these statements are true or false**

Most people are curious about different countries and their cultures. So, some tend to make friends from all around the world. Making friends from all over the world is easy nowadays. We only have to sign up to a pen pal website under the supervision of parents. When we create a profile, we will be asked to fill out basic details about ourselves; like our interests, the country we are from, and our birth date. We will be able to have conversations with new friends in different countries, so learning another language can help us build bonds with people that speak foreign languages. We must be polite when asking them about their lives and things that they are interested in.

Being a nice person and willing to learn about new experiences will help you make friends wherever you go. If we have the chance to travel one day, we may meet these friends face to face. We have to keep in mind that different people in different countries have different cultures and different life styles which enrich our knowledge about various topics. We have to respect other people's privacy and try to learn the best from them.
