Read the following passage, and then answer the questions below:

Our goal is something that you want to achieve. To do that, you should decide what that goal is. Do you want to pass an exam? Do you want to be a doctor? Do you want to be wealthy? Think about what you want and decide on your goal. You should write your goal on a piece of paper. Put your goal poster on your wall and look at it every day. Then decide what you have to do to achieve your goal.

Some people never reach their goal because they think it is impossible. You should think positively and this is the

key step in achieving your goal. Don't think "the exam is difficult and I will probably fail it". Instead, you should think "The exam is difficult, but I have worked hard and will pass it". People who think negatively seldom reach their goals, so be positive!

We are most successful at things we enjoy. So you should try to enjoy your work. Look at your goal poster. Think how happy you will be when you have reached your goal. Think about that happiness while you are working and you will enjoy your work.
