

A- Read the following text and choose the correct answer (a, b, c or d): (72 marks)

Psychologists said that it was very easy for a child to get swayed by peer pressure into choosing a career that the majority was opting rather than the **one** which was best for him/her. Although it should not be the most important, remuneration of a career holds value in one's life; nobody likes to earn little. A job's earnings should match the child's aspirations and provide a satisfying comfortable life. Modern societies need professionals in every field: utility workers, garbage collectors, farmers, nurses, doctors, engineers, teachers, professors and many others. Furthermore, demotivation might have a negative impact on the child's mental health when rejecting all of his/her ideas. Parents can work together to gather information about a career and then help the child in deciding whether it is suitable or not. Most people have dreams of future jobs and there's no limit to what this could be, but we can't be absolutely certain about our career choices. Researchers told us that through self-reflection and guided activities, we would find our core values and a clearer path towards the right career.

B- Read the following text, then put True or False: (72 marks)

There is no word more boring and monotonous than the word "I". We must be confident of ourselves, but that does not mean we talk about ourselves and our accomplishments all the time, as this leads to vanity. Human relationships are also important because without love and support from family and friends, you would not feel happy and would not achieve success in life. Man by nature makes mistakes, so be tolerant and seek excuses for those around you, and if someone comes to you with an apology, do not stop him, and do not carry in your heart any envy of anyone. Take care of your health and make it a priority for your entire life. A great example is Thomas Edison. He failed many times, but he did not give up until he succeeded. Even when he failed, Edison learned something. 'I get results in everything I try,' he said. The golden rule for everybody is to be honest, trustful, useful and generous so that they leave life with a trace that those around them will not forget about.
