People sometimes experience new events and have a strange feeling that it's not the first time. This sensation is called (déjà vu). (Déjà vu) or " already seen " is one of the human supernatural powers which results from the subconscious. Some researchers think that (déjà vu) is our memory about dreams. This means that you didn't face the situation before, but you had seen it in one of your dreams. Of course you don't remember the dream but when you face the situation you recall that dream and feel shocked.
