Letters to the Editor

To the Editor:

¹ Why do our children have 12 weeks of summer vacation? We have to change the school schedule. Saudi students lose between two and three months of learning during their summer vacations. This is not necessary. Away from school for so many weeks, students forget what they learned. Experts say that students lose math skills and reading skills. At the beginning of school in September, teachers need to review last year's studies for the first four to six weeks of school. This is not a good use of classroom time.

² Summer vacations are not great opportunities for learning. Unfortunately, most fathers cannot be with their kids during the long summer months. Some families can pay for summer camps, but many of them cannot. Most children stay home and watch TV. They are bored. Most children do not learn skills during the summer.

³ Students in Saudi Arabia do not have a high number of school days. Many other countries have more. The average number of days in Japan is 243, and in South Korea 220. In Saudi Arabia, the average number is only 180. Our children need more school

Letters to the Editor

To the Editor:

¹ Why do our children have 12 weeks of summer vacation? We have to change the school schedule. Saudi students lose between two and three months of learning during their summer vacations. This is not necessary. Away from school for so many weeks, students forget what they learned. Experts say that students lose math skills and reading skills. At the beginning of school in September, teachers need to review last year's studies for the first four to six weeks of school. This is not a good use of classroom time.

² Summer vacations are not great opportunities for learning. Unfortunately, most fathers cannot be with their kids during the long summer months. Some families can pay for summer camps, but many of them cannot. Most children stay home and watch TV. They are bored. Most children do not learn skills during the summer.

³ Students in Saudi Arabia do not have a high number of school days. Many other countries have more. The average number of days in Japan is 243, and in South Korea 220. In Saudi Arabia, the average number is only 180. Our children need more school

To the Editor:

⁴ I don't think we should reduce vacation. I feel it is important for students take a good vacation. A long academic of hard work can be difficult and can cause stress. Also, I believe people learn everywhere, not just in school. I believe children need experience in the world.

³ Summer vacation is a great opportunity. Kids can discover the world outside school. They can learn to do things they can't learn in a classroom. They can learn to swim and ride bikes. They can travel to summer camps. They can get work experience or help people in the community. Basically, they can get more experience in the world.

⁶ I am against a longer school year. I think summer vacations give families time together. During the school year, everyone is busy. During summer vacations, we learn to relax. We take time to do things together. Vacations are good for families.

...or people to laugh. Most laughter is about being friendly people, but there are other reasons to laugh, too. Last week I asked my readers about why they laugh. Wow! I got some great responses by reading!

I laugh a lot, only when I am nervous. For example, I laugh when I get embarrassed. I also laugh when I speak in front of a group of people. At the beginning of my new job, I often tell a joke. It is not a very good joke, but everyone laughs. I think laughter helps us relax. I often laugh when I am nervous.

Reading 1.1: Read the article and choose the best answer for each item: a, b, c, or d.

From: Reem Al Amoudi, Owner
To: All employees of Reem Clothing Store
Subject: Reem Clothes Store Employee vacation Policy

¹ Reem Clothing Store wants its employees to enjoy their work. I think it is important for all employees to take vacation. However, many of you only take a break during Ramadan and Hajj. Some of you even work during Ramadan! I want everyone to take time off.

² The managers have made two options available, with different reasons, for the employees to look at. Please choose one of them. The first option gives reasons to keep our current vacation policy. The second option gives reasons to change our current policy, and not close for three weeks every year. Please return your email with your choice by the end of Thursday.

Tip

Activities A, B, and C ask you to **interpret** a table or a graph. To interpret, you have to take information in one form and change it into another form. In these activities, you have to use numbers to understand ideas.

- A. To draw a table or a graph
- B. To take information in one form and change it into another form
- C. To change information in a paragraph
- D. To change a graph into a pie chart

Question No. 2

- Our employees do not take the vacation they need. Many employees do go on vacation, but they continue check their email and call the company.
- It works in other countries.
- Tired or lazy workers lose money for the company. They are more likely to feel stress and get sick.

OPTION 2: CHANGE THE VACATION POLICY

One way to change the vacation policy is to let all employees choose when to use their vacation days. Here are some reasons to change this policy.

- Closing the store for three weeks reduces the money that our money can make.
- The company can reduce stress in other ways. We can give our employees a place to exercise so they can improve their health. Also, we can reduce their hours.
- Employees can use their vacation time anytime. They can plan a vacation around their family needs.

Letters to the Editor

To the Editor:

¹ Why do our children have 12 weeks of summer vacation? We have to change the school schedule. Saudi students lose between two and three months of learning during their summer vacations. This is not necessary. Away from school for so many weeks, students forget what they learned. Experts say that students lose math skills and reading skills. At the beginning of school in September, teachers need to review last year's studies for the first four to six weeks of school. This is not a good use of classroom time.

² Summer vacations are not great opportunities for learning. Unfortunately, most fathers cannot be with their kids during the long summer months. Some families can pay for summer camps, but many of them cannot. Most children stay home and watch TV. They are bored. Most children do not learn skills during the summer.

³ Students in Saudi Arabia do not have a high number of school days. Many other countries have more. The average number of days in Japan is 243, and in South Korea 220. In Saudi Arabia, the average number is only 180. Our children need more school

I don't think we should reduce vacation. I feel it is important for students take a good vacation. A long academic of hard work can be difficult and can cause stress. Also, I believe people everywhere, not just in school. I believe children need experience in the world.

Summer vacation is a great opportunity. Kids can discover the world outside school. They can learn to do things they can't learn in a classroom. They can learn to swim and ride bikes. They can travel to summer camps. They can get work experience or help people in the community. Basically, they can get more experience in the world.

I am against a longer school year. I think summer vacations give families time together. During the school year, everyone is busy. During summer vacations, we learn to relax. We take time to do things together. *Vacations are good for families.*

Letters to the Editor

To the Editor:

¹ Why do our children have 12 weeks of summer vacation? We have to change the school schedule. Saudi students lose between two and three months of learning during their summer vacations. This is not necessary. Away from school for so many weeks, students forget what they learned. Experts say that students lose math skills and reading skills. At the beginning of school in September, teachers need to review last year's studies for the first four to six weeks of school. This is not a good use of classroom time.

² Summer vacations are not great opportunities for learning. Unfortunately, most fathers cannot be with their kids during the long summer months. Some families can pay for summer camps, but many of them cannot. Most children stay home and watch TV. They are bored. Most children do not learn skills during the summer.

³ Students in Saudi Arabia do not have a high number of school days. Many other countries have more. The average number of days in Japan is 243, and in South Korea 220. In Saudi Arabia, the average number is only 180. Our children need more school

To the Editor:

⁴ I don't think we should reduce vacation. I feel it is important for students take a good vacation. A long academic of hard work can be difficult and cause stress. Also, I believe people everywhere, not just in school, like children need experience in the world.

³ Summer vacation is a great opportunity. Kids can discover the world outside school. They can learn to do things that can't be done in a classroom. They can learn to swim and ride bikes. They can travel to summer camps. They can get experience or help people in the community. Basically, they can get more experience in the world.

⁵ I am against a longer school year. I believe summer vacations give families time together. During the school year, everyone is busy. During summer vacations, we have more time. We take time to do things together. Vacations are good for families.

Letters to the Editor

To the Editor:

¹ Why do our children have 12 weeks of summer vacation? We have to change the school schedule. Saudi students lose between two and three months of learning during their summer vacations. This is not necessary. Away from school for so many weeks, students forget what they learned. Experts say that students lose math skills and reading skills. At the beginning of school in September, teachers need to review last year's studies for the first four to six weeks of school. This is not a good use of classroom time.

² Summer vacations are not great opportunities for learning. Unfortunately, most fathers cannot be with their kids during the long summer months. Some families can pay for summer camps, but many of them cannot. Most children stay home and watch TV. They are bored. Most children do not learn skills during the summer.

³ Students in Saudi Arabia do not have a high number of school days. Many other countries have more. The average number of days in Japan is 243, and in South Korea 220. In Saudi Arabia, the average number is only 180. Our children need more school
