فاينل ( من شابتر 8 الى شابتر 10 )

الاسئلة مرتبة من شابتر 8 الى 10

تماسك مهما تعسرت دراستك وتعقدت حياتك، أظن أن جبار  
السموات والأرض ليس بقادر على أن يجبر قلبك؟ لا تجعل  
إحباطك يهزمك، قاوم وتبصر بما يميزك، ستتجاوز همك، الله  
معك بكل حالاتك 🌟❤️✓.

# chapter 8

## Question 51

قريباً سيُستجاب لك شيئاً أَلحت به كثيراً وكنت تظن انه  
مستحيلاً، أَلح .

Total questions in exam: 40 | Answered: 0

Question No. 12

Which of the following is not a role of the liver?

- Produces bile
- Synthesizes blood clotting proteins
- Detoxification
- Produces pepsin

D

Save & Next حفظ والتالي

Total questions in exam: 40 | Answered: 0

Question No. 1

In the esophagus.....

- Food is digested
- Food is absorbed
- Food is ingested
- Food moves to stomach

D

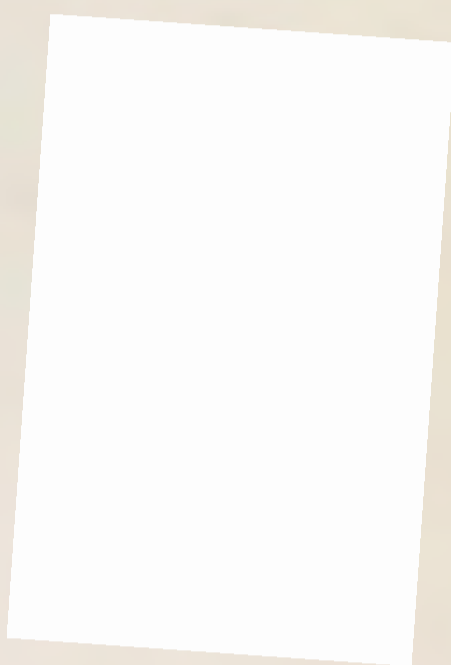

Save & Next حفظ والتالي

Question No. 2

In the large intestine

- Bile is released
- Water is absorbed from un-digested food
- Food is digested
- Saliva is produced

B

A digital calculator interface with a grid of buttons in red and yellow, and a display area at the top.

**Question No. 33**

The total of all energy used by animals is called.....

- Respiration rate
- Energy resting rate
- Metabolic rate
- Kinetic energy

C

Question No. 2

The breakdown of food by teeth is a phase of

- Elimination
- Ingestion
- Absorption
- Digestion

Chemical digestion of food is catalyzed by .....

- Enzymes
- HCL
- Water
- Teeth

A

Excess water-soluble vitamins can be eliminated in.....

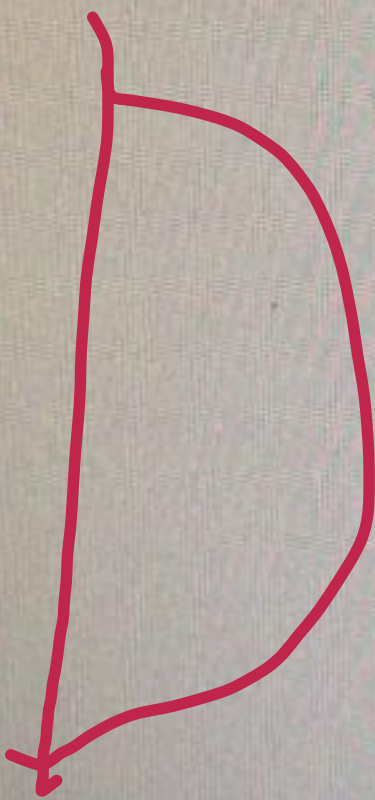

- Saliva
- Chyme
- Bile
- Urine

D

Question No. 4

Salivary enzymes are responsible for.....

- Digestion of fat
- Digestion of nucleic acids
- Digestion of proteins
- Hydrolysis of starch

Total questions in exam: 40 | Answered: 3

Question No. 3

A small organ located under the liver and help to digest fatty foods is called.....

- Gall bladder
- Lungs
- Pancreas
- Stomach

A

Total questions in exam: 40 | Answered: 11

Question No. 28

A mixture of gastric fluid and food particles is called...

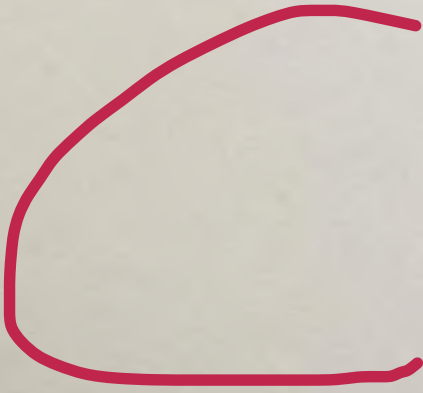

- Chyme
- Feces
- Saliva
- Bile

A

Question No. 7

The salivary glands are found in.....

- Esophagus
- Small intestine
- Oral cavity
- Large intestine

Total questions in exam: 40 | Answered: 0

Question No. 17

The body system which eliminates food wastes is the.....

- Skeletal
- Digestive
- Circulatory
- Nervous

B

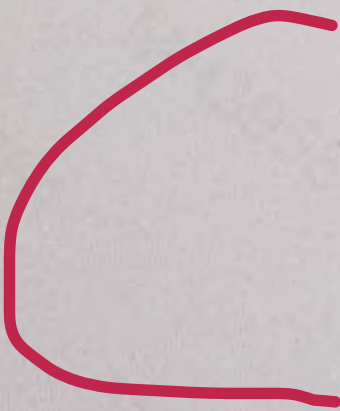

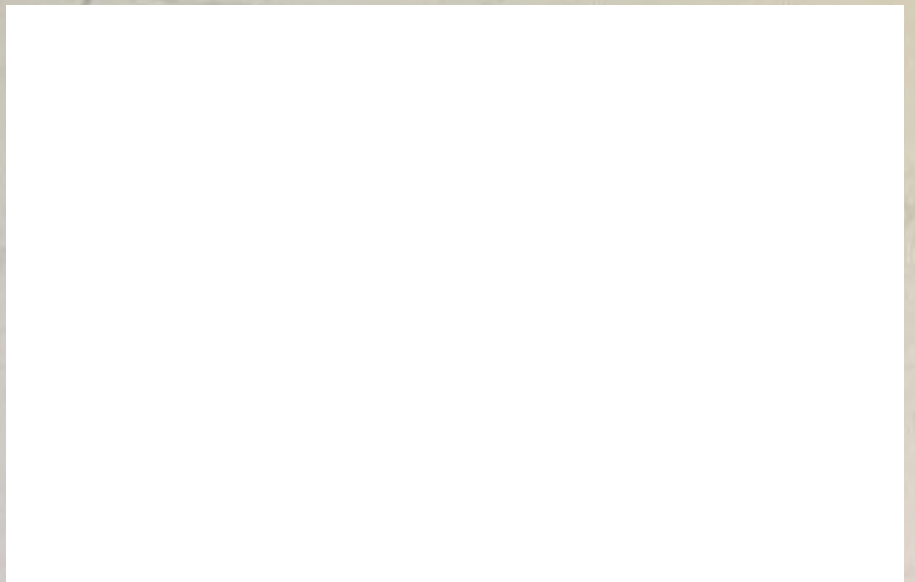

Total questions in exam: 40 | Answered: 9

Question No. 8

Minimum energy a resting animal requires each day to live is called.....

- Respiration rate
- Metabolic rate
- Basal metabolic rate BMR
- Energy resting rate

Total questions in exam: 40 | Answered: 0

Question No. 26

In the digestive tract – what comes after stomach?

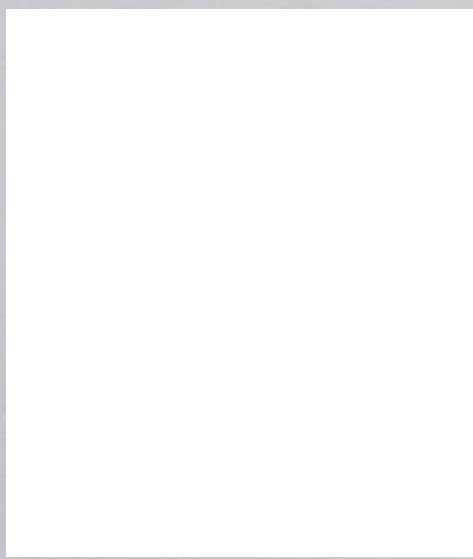

- Pharynx
- Small intestine
- Esophagus
- Large intestine

B

Question No. 12

Mechanical digestion of food occurs in the .....

- Mouth
- Gall bladder
- Appendix
- Pharynx

A

Question No. 10

Ingestion is .....

- Absorbing food
- Eating food
- Breaking food
- Eliminating food

B

**Question No. 33**

Where the chyme الكيموس is produced?

- Liver كبد
- Pancreas بنكرياس
- Stomach معدة
- Mouth

**Question No. 30**

**Peristalsis is:**

- Contraction of esophagus to control food movement
- All answers are correct
- Breakdown of molecules by adding water
- Digestion of food in the stomach

A

Question No. 9

Exercise .....

- Increases LDL levels
- Decreases HDL levels
- Increases HDL levels
- All answers are correct

Question No. 14

Digestive enzymes

- Eliminate food
- Hydrolyse food
- Move food
- Absorb food

B

Question No. 27

In the small intestine.....

- Wastes are expelled
- Food is digested and absorbed
- Water is absorbed from un-digested food
- Food is chewed

B

Total questions in exam: 40 | Answered: 7

Question No. 6

Which of these structures is NOT part of the digestive tract?

- Esophagus
- Stomach
- Liver
- Small intestine

Question No. 32

The body system which eliminates food wastes *يُتخلص من فضلات الطعام* is the.....

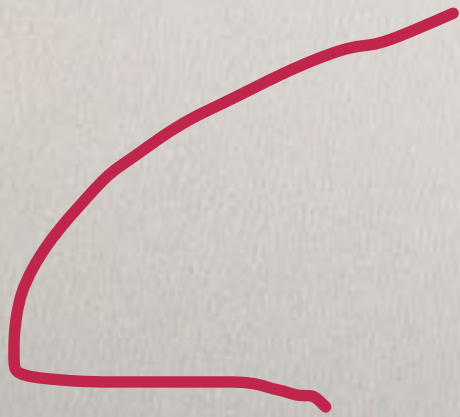

- Digestive
- Nervous
- Circulatory
- Skeletal

A

Question No. 35

The longest الأطول part of the digestive tract قناة هضمية is the.....

- Stomach معدة
- Esophagus مری
- Small intestine
- Large intestine أمعاء

Question No. 12

In the digestive tract - what comes after stomach?

- Small intestine
- Large intestine
- Esophagus
- Pharynx

Question No. 23

The Small glands that begin digestion of starch is called \_\_\_\_\_

- Pineal
- Adrenal
- Salivary
- Thyroid

Question No. 33

Average adult human needs ..... for activities

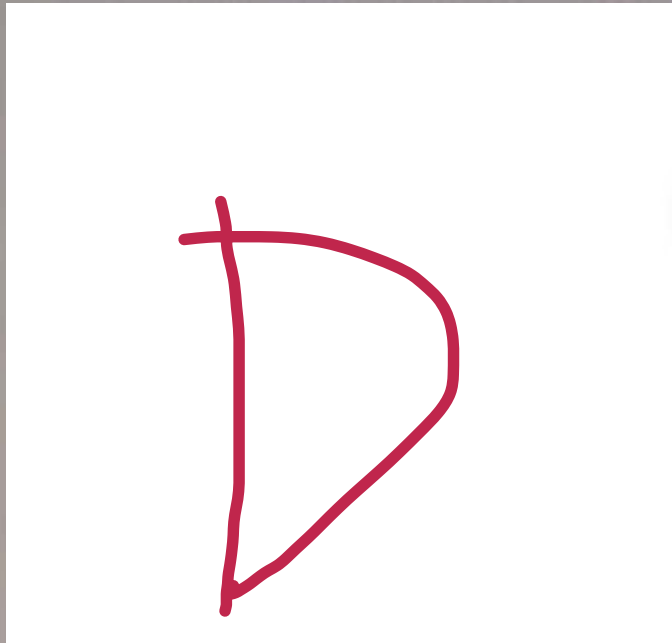

- 2200 Kcal/day
- 500 Kcal/day
- 1000 Kcal/day
- 3000 Kcal/day

A

Question No. 36

The digestive tract has two openings .....and.....

- Stomach - Small intestine
- Nose - Anus
- Mouth - Anus
- Mouth - Nose

Save & Next حفظ والتالي

## Question No. 37

Undigested food is expelled through .....

- Anus
- Skin
- Mouth
- Liver

A

Question No. 36

Which process takes place in the esophagus?

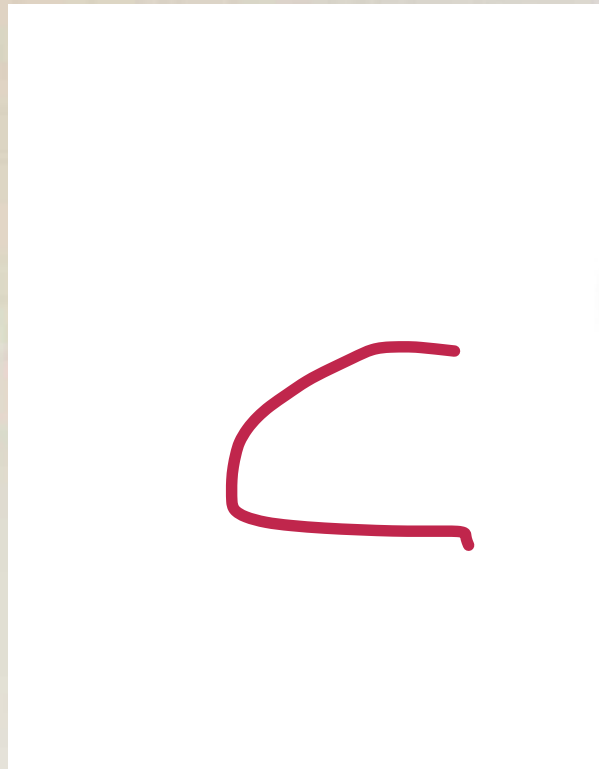

- Peristalsis
- Digestion
- Absorption
- Ingestion

Question No. 38

Which of the following organs is CORRECTLY matched with its function?

- Stomach- Food elimination
- Large intestine - Chemical digestion
- Small intestine -Absorption
- Oral cavity- Peristalsis

Save & Next حفظ والتالي

**Question No. 33**

The digestive tract starts with the .....

- Small intestine
- Nasal cavity
- Oral cavity
- Stomach

C

**Question No. 32**

---

Humans are .....

- All answers are correct
- Herbivores
- Omnivores
- Carnivores

Question No. 38

Bile .....

- Help absorb fats
- Digest fats
- Prepare fats for digestion
- Build fat molecules

B

The first step of food processing is called .....

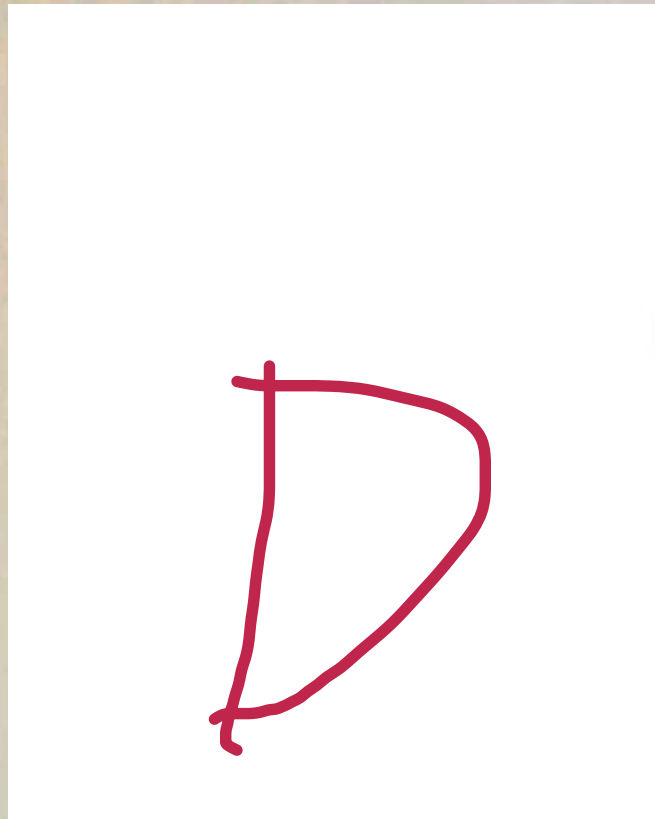

- Elimination
- Ingestion
- Absorption
- Digestion

B

Question No. 38

In the digestive tract, the ..... absorbs H<sub>2</sub>O to give semi-solid waste

- Esophagus
- Small intestine
- Stomach
- Large intestine
