d. You mustn't let this depress you.

b. I need your help urgently

d. I have a complaint to make

d. I'm sorry about what happened

d. We are proud of you.

b. No, thank you.

<u>A-Read the following text then Choose the correct</u> <u>answer (a, b , c or d)</u> (60 marks)

The human body is a wonderful machine which performs several functions without rest from birth. Our body continues to work, without stopping for a second. The main organs of the human body are lungs, heart, kidney, liver and brain. These organs work together and are controlled by the brain. Each system such as digestive system, excretory system, circulatory system, endocrine system, nervous system or muscular system carries out a major function. All of them are controlled by the brain which gives us intelligence to use our physical and mental abilities. The body has more than 50000 living cells of two hundred different types. These cells include neurons (nerve cells) and glands (specialized cells). The hormones and enzymes are produced and secreted by these glands that perform different functions. The human body is covered by the skin, which is a flexible covering that protects the body and keeps water and harmful germs out. The body's strong internal framework (skeleton) is made of 206 bones, connected at the joint, such as in legs. These joints help us to move. The backbone supports the head and limbs and protects the spinal cord. Between the skeleton and the skin, there are about 500 muscles. Nerves spread from the brain to all parts of the body, carrying signals in the form of tiny electrical impulses. The sense organs namely eyes, nose, ears, tongue and skin.

1.	All the body organs are	domina	ted	b <mark>y</mark>
	a. the heart			brain
	c. the liver	d.	the	digestive system

.....

- 3. Which information is not mentioned in the text?
 - a. Nerves convey the signals from the parts of the body to the brain.
 - **b.** Our heads and limbs are supported by the skeleton.
 - **c.** The heart is the most effective muscle in our bodies
 - **d.** The body is an incredible machine because it goes on working with no rest..

4.	The skin is		
	a. Elastic	b. inflexib	le
	c. tough	d. the sma	allest organ in the body
5.	The main function of the	e joints is to	
	a. link the muscles.		b. link the bones.
	c. pass on the messages t	o the brain	d. help us digest food
6.	The body can be protect	ed from har	rmful germs by
	a. the skin	b. the hea	rt
	c. the glands	d. the nerv	/es

<u>B- Read the following text Then decide if sentences</u> <u>are true or false</u> (60 marks)

Every day we learn many important lessons that we must benefit from in order to be able to achieve more successes, and to make life beautiful and prosperous. Most people think that education is limited to schools only, but the truth is that there are lessons that we can only learn from life, and they may be more important than those learnt at schools. Life lessons are sometimes painful before they are acquired, and in order to avoid this, we must benefit from the experiences of others. We shouldn't pay too much attention to the trivial things that are not important and waste our time and effort. Since life is so unpredictable, we must not live on expectations only and meet everything new in life with optimism and positive thinking. There is no word more boring and monotonous than the word "". We must be confident of ourselves , but that does not mean we talk about ourselves and our accomplishments all the time, as this leads to vanity. Human relationships are also important because without love and support from family and friends, you would not feel happy and would not achieve success in life. Man by nature makes mistakes, so be tolerant and seek excuses for those around you, and if someone comes to you with an apology, do not stop him, and do not carry in your heart any envy of anyone. The pursuit of success will make you succeed in the end, no matter how long the period is, but keep trying. Failure is a great teacher in life. It teaches us humility and how to correct our course of life. A great example is Thomas Edison. He failed many times, but he did not give up until he succeeded. Even when he failed, Edison learned something. 'I get results in everything I try,' he said.

- 7. School lessons are more important than life lessons. ()
- 8. We can achieve success by avoiding silly issues. ()
- 9. It is unnatural for human beings to make mistakes. ()
- 10. Repeating the word "I" is something interesting. ()
- 11. It is important to be envious to achieve success. ()
- 12. Edison continued worked and never stopped until he achieved success. ()

C- Choose the correct answer (a, b, c or d): (130 marks)	30. I didn't mend the car myself. I
