Question No. 1

[The main body of the page is obscured by a dense, chaotic scribble of yellow lines.]

→ see 3B6

Both eukaryotic and prokaryotic cells have

- True organelles
- DNA
- All answers are correct
- True nucleus

3

Question No. 17

The main difference between prokaryotic & Eukaryotic cells are

- True organelles
- Reproduction
- Cell membrane
- Movement

A

Which of the following is NOT characteristic for all living things?

- Living things talk
- Living things move
- All answers are correct
- Living things eat through a mouth

The biosphere consists of different

- Communities
- Spaces
- Domains
- Ecosystems

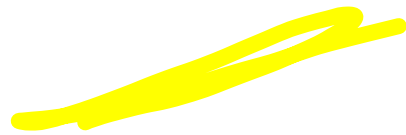

+ [redacted]

Which one of these compounds is the simplest form of organic compounds?

- Methane
- Polysaccharides
- Lipids
- Ethan

A

2/18/20, 8:52 AM

All Media

Glucose is a building unit in.....

- Only Lactose
- Only Sucrose
- All disaccharides
- Only Maltose

● من من الآتي يوصف ال polypeptide?

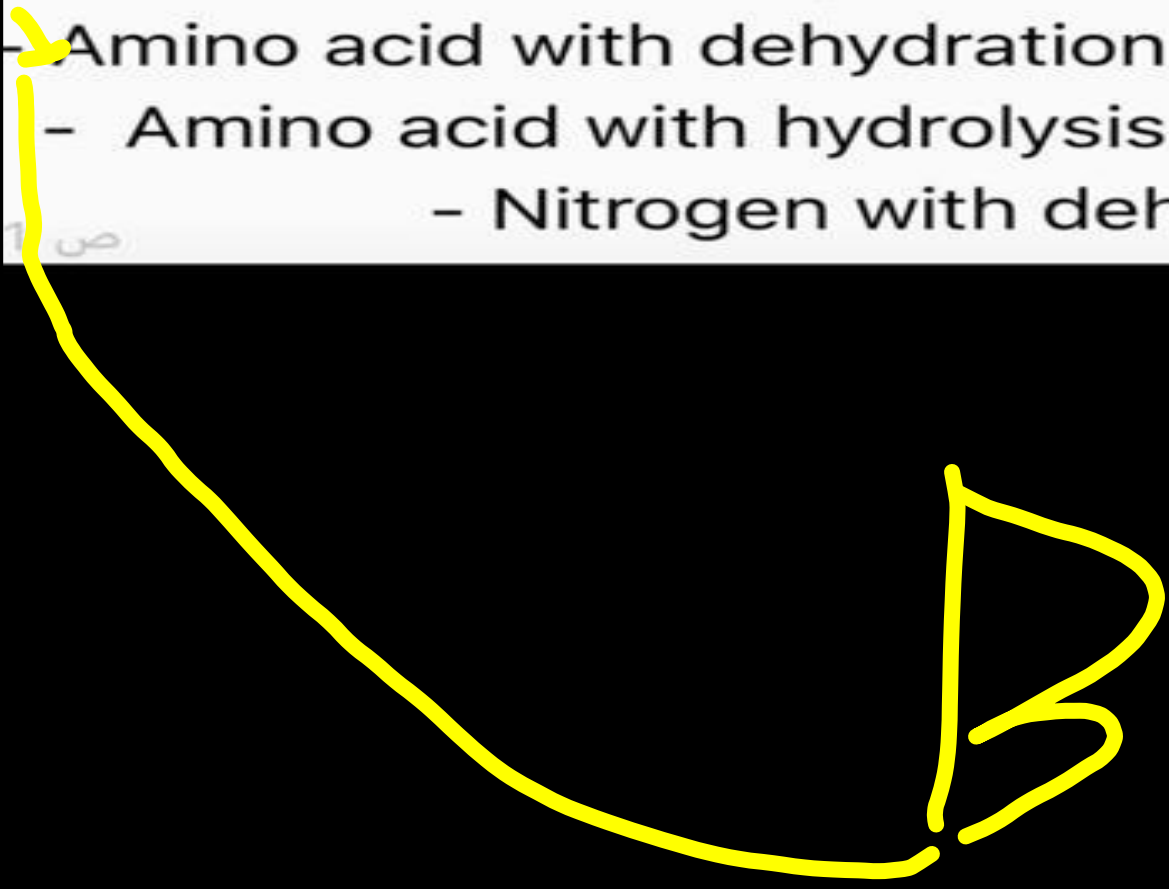

- Hydrocarbon group

- Amino acid with dehydration reaction

- Amino acid with hydrolysis reaction

- Nitrogen with dehydration

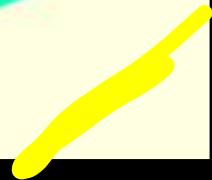

ص 7

Photosynthetic organisms are called.....

- Decomposers
- Producers
- All answers are correct
- Consumers

B

Carbohydrate molecules do not contain.....

- Carbon
- Oxygen
- Helium
- Hydrogen

C

A group of organisms belonging to the same species forms

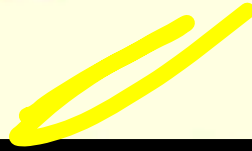

- An ecosystem
- A population
- Biosphere
- A community

B

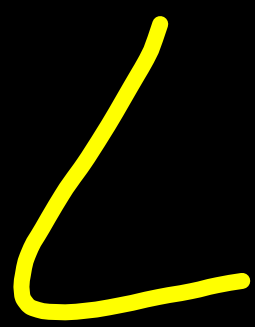

Different levels of biological organization is called

- history
- histology
- cells
- hierarchy

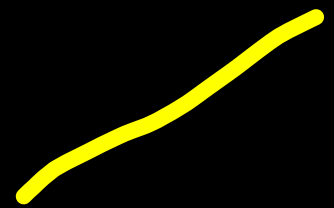

Which of these organelles are absent in bacteria?

- Chloroplasts
- Mitochondria
- All answers are correct
- Nucleus

All amino acids contain the two functional groups of

- Amino + Hydroxyl
- Hydroxyl + Carboxyl
- Methyl + Amino
- Amino + Carboxyl

Prokaryotic cells are

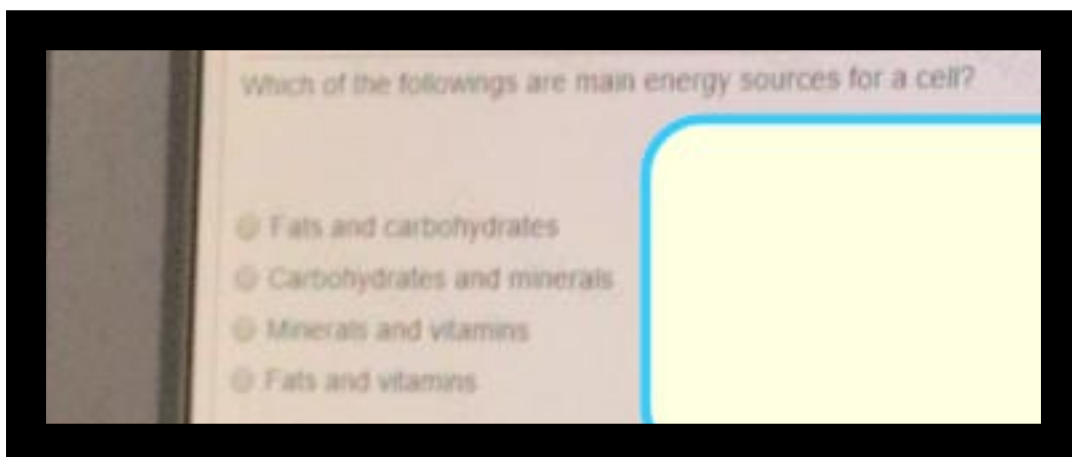

- Cells that do NOT have a true Nucleus
- Cells that have a true Nucleus containing DNA
- Cells that do not have a cell membrane
- Cells that have a Nucleus with NO DNA

A

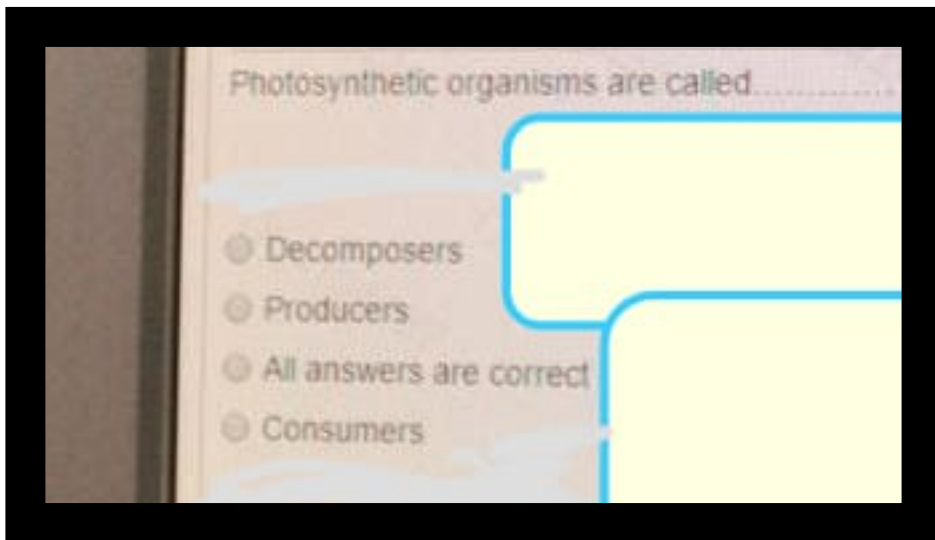

The functional groups are groups of atoms that

- Ⓐ Participate in chemical reactions but not determine the properties of organic compounds
- Ⓑ Determine the properties of the organic compound only
- Ⓒ Participate in chemical reactions and determine the properties of organic compounds
- Ⓓ Participate in chemical reactions only

A

B

A group of organisms belonging to the same species forms.....

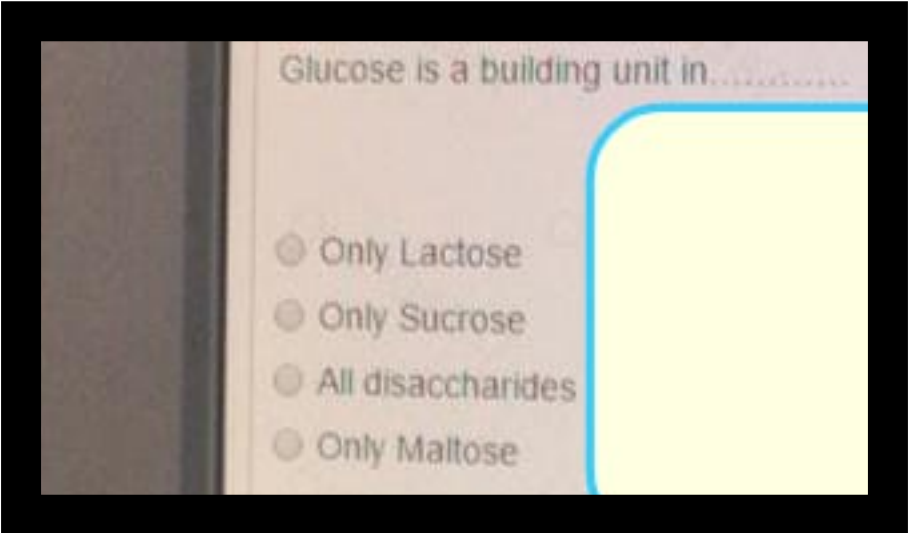

- An ecosystem
- A population
- Biosphere
- A community

B

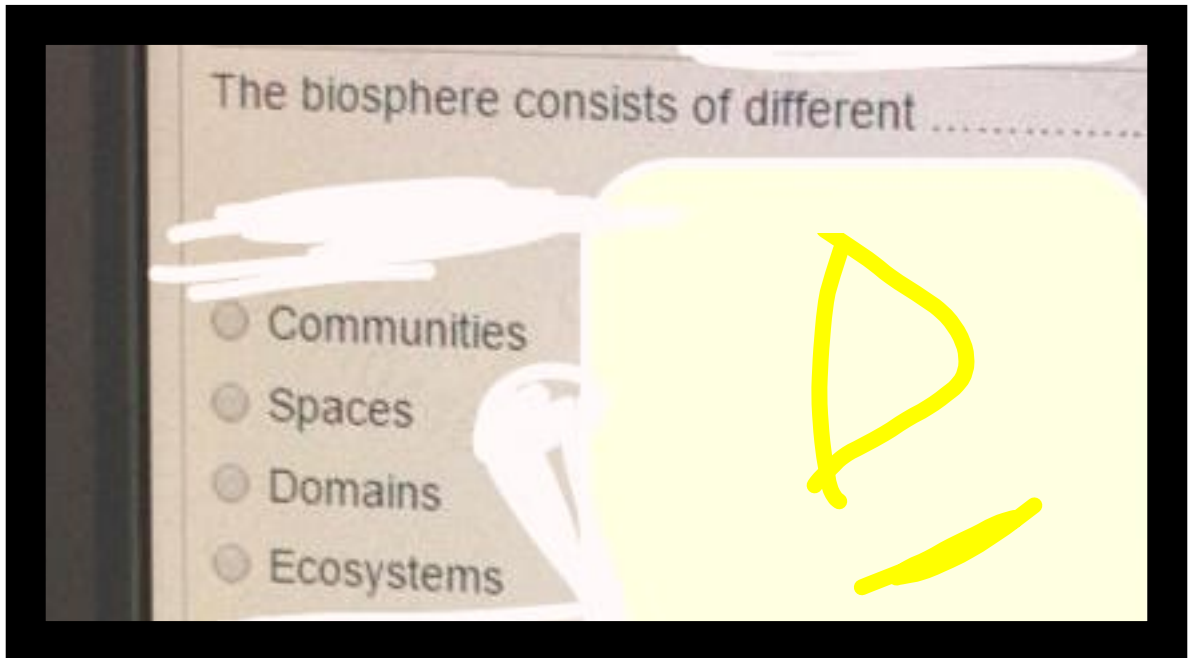

Which type of lipid has a skeleton of four fused carbon rings?

- Phospholipid
- Triglyceride
- Maltose
- Cholesterol

D

✓

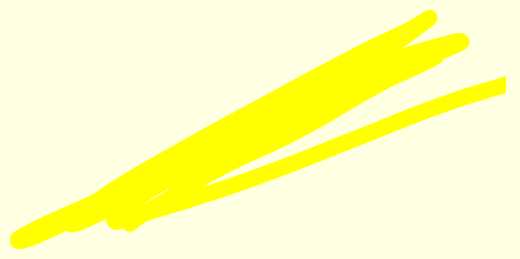

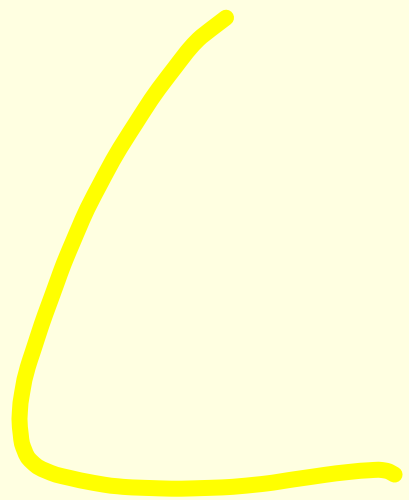

Smile

Which of the following is NOT characteristic for all living things?

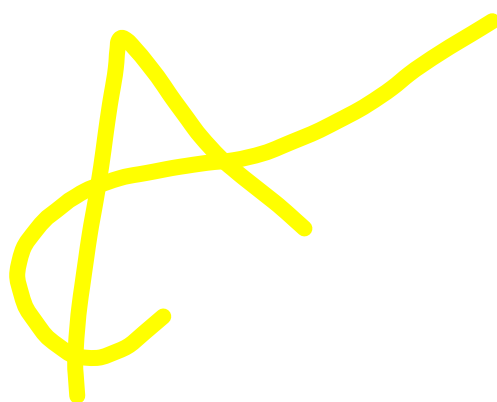

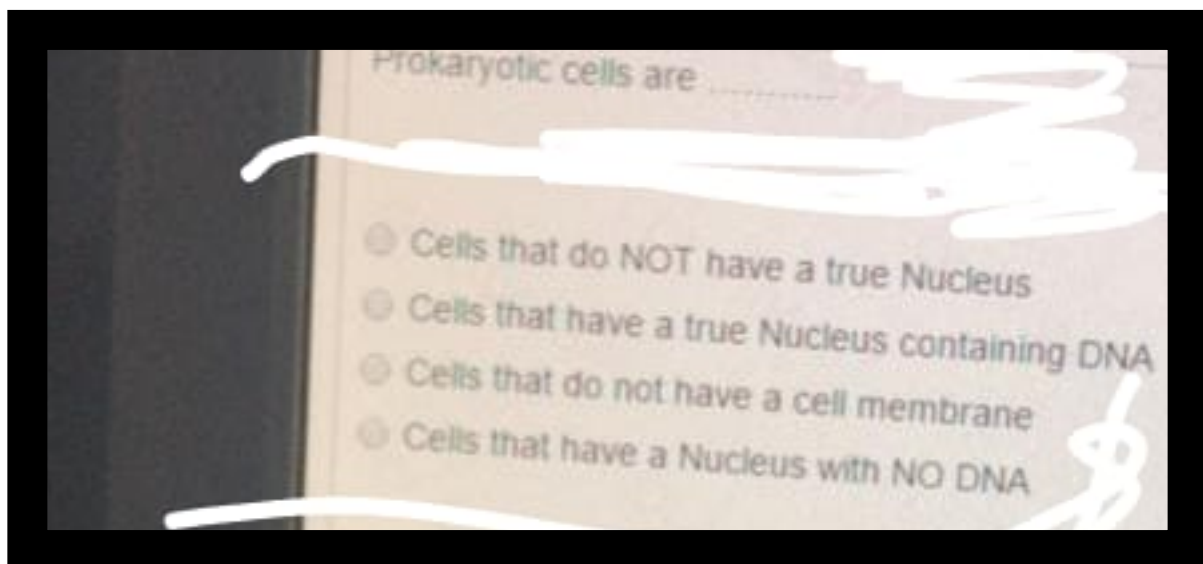

- Living things talk
- Living things move
- All answers are correct
- Living things eat through a mouth
