Question No. 1

Read the introductory paragraph to an opinion essay below. Which of the following is the best thesis statement for the essay?

With new technology, advertising can be deceptive. For example, many beauty ads show women with perfect skin and hair. In reality, their photos have been "touched up" by computer software programs. Men, too, are shown as very muscular and strong, when the reality may be quite different. Men and women both age naturally, but advertisements show a different kind of person—one who never gets old.

- I think computer software programs are very innovative.
- I think advertising should show people of different ages, shapes, and sizes, not just young people.
- I think changing the way someone looks in a photo is outdated.
- With new technology, advertising can be deceptive. For example, many beauty ads show women with perfect skin and hair.

Question No. 1

Read the introductory paragraph to an opinion essay below. Which of the following is the best thesis statement for the essay?

I was watching TV last night and realized something about my life. I'm missing a lot of things. When I saw a commercial for a new sports car, I realized I don't have the most modern car. An ad for flat-screen TVs reminded me that my television is eight years old. And finally, the travel commercial reminded me that I don't have the money to travel to exotic places and stay in world famous resorts. So, in the end, all of these things make me feel like a failure. This is not a reason why I watch TV.

- Advertising on TV should provide us with details about all the latest products.
- Advertising on TV should entertain us.
- Advertising on TV should make us miss a lot of things.
- Advertising on TV should not make us feel like we are not successful.
