Hana Al-Hroub was a poorly paid teacher in the West Bank. Then she won the \$1 million Global Teacher Prize. The committee praised Mrs. Al-Hroub's "play and learn" method, which she still employs. Besides her clown outfit, Mrs. Al-Hroub uses balloons, hula-hoops, toy cars and puppets to explain her lessons. Her aim is to make the classroom a calm and fun place where children can forget about the struggles of daily life, and open their minds. "We play first, and when we play we learn," she said. "The kids don't even realise they are learning." Mrs. Al-Hroub plans to establish her own foundation and use some of her winnings to train other teachers to follow her approach.

**B- Read the following text and do the tasks below:**

One day, an unemployed man went to apply for a job with Microsoft as a cleaner. The manager asked the man for his email address to send him the application form, but the man didn't have one. So the manager told him that he couldn't be employed. The man looked at the last £10 in his wallet and thought of buying tomatoes in bulk. Within less than 2 hours, he sold all the tomatoes at 100% profit. Repeating the process several times, in a short period he bought a cart to transport several dozen boxes of tomatoes. By the end of the second year, he became the owner of a fleet of trucks and the manager of a staff of a hundred former unemployed people, all selling tomatoes. This man proved that even with the lack of technology, with determination and the required skills one can make a difference.

**B- Read the following text and do the tasks below:**

On March 27, 2013, John Sweeney, a plumber from Ireland, started a Facebook page called Suspended Coffee. His message was simple: Buy a cup of coffee for a stranger, because an act of kindness can change a life and make a difference. Suspended coffee customers buy coffee, they also pay in advance for a cup to be given to somebody who couldn't afford it. You can buy it for anyone in need. It can be for the homeless person you pass by every day on the street, a stressed student in the middle of exams, a mother of children who can't afford coffee. It may be a well-dressed man whom you may not think from his appearance that he's in need but he may be in his third month of job hunting. It's not up to us to judge - if someone asks, then they're in need - no CV required.

Life in the future will be very different. Futurologists predict that life will probably be very different in all the fields of activity. I think that in the future we'll have more comfortable life. This will be obvious in all aspects of life. As for housing problems will end. People will build houses everywhere. So everyone will have a place to live in. On the other hand, hunger will stop all over the world. People will grow new types of crops everywhere even on the roofs of buildings. Finally, world peace is going to spread because the world will have nothing to fight for. Everyone will have education, health, home and food. So everyone will be happier and love will be everywhere.

Someday people will live in space. By the end of this century, there will be a permanent settlements that will allow people to lead a normal life in space. In some way, living on the moon will be easier than living on a space station and it will be cheaper because people won't bring everything from the Earth by rockets. The space city will be like a gigantic glass wheel that will contain buildings and factories. Inside it, people won't live differently from small towns on the Earth. It will have air so that inhabitants can breathe and they won't need to wear special spacesuits inside the buildings. Scientists also believe that they will obtain water from a large ice lake on the moon. Life on the moon will be just the beginning.

Some people think that autonomous vehicles will cause many problems that need to be solved before they are allowed to become a part of our daily lives. For example, driverless cars will increase unemployment. Thousands of drivers will lose their jobs if **(they)** are allowed to take over the roads. Another example, governments and cities will lose much money from parking, speeding fines and petrol taxes. And insurance companies will lose more than fifty percent of their income from car insurance. In conclusion, it is possible that autonomous vehicles will not benefit society if they are introduced too quickly. They may cause social chaos through unemployment, financial loss and lack of planning.

**Choose the right answer (a ,b, or c )to complete the following :**

- Many problems should be solved before driverless cars are ..... in our daily lives.  
**a- not allowed                      b- declined**  
**c- implemented                      d- prohibited**

**B- Read the following text and do the tasks below:**

When we think about the future, we tend to assume that most things will stay the same. We are experiencing a technological progress every month now. The world is changing and the changes are very dramatic. Some recent researches have suggested that we need to think about the way we imagine future cities, and to focus on some forms of alternative energy such as solar power, which leads to environmental sustainability. We may want our future cities to prioritize environmental renewal. We need to prevent environmental degradation and stop the expansion of deserts. Future cities can collect water and use solar power to irrigate the dry land. Imagining these cities helps us understand how we want our future lives and tomorrow's world to look like.

**Write true T or false F: (50 marks)**

- We tend to believe that most things will stay the same in the future. (     )
- The changes in our world are very small. (     )

**A-Read the following text and do the tasks below:****(50 marks)**

We make thousands of decisions a day. Making a choice is easy. Choosing well takes knowledge and skills. You have many decision-making examples in daily life such as: deciding what to wear. Decision making is an on-going process in every aspect of life, large or small. The ability to make a decision and stick to it is the cornerstone of good leadership. Having critical thinking skills allows one to ascertain the problem and come up with a suitable and beneficial solution. Before taking a step, we must try to see where possible potholes are. This won't just make us stronger moving forward. It will also give us more determination and awareness about what we are deciding.

**Choose the right answer (a ,b, or c )to complete the following :**

- Decision making is a ..... process in every aspect of life.  
a- past                                      b- continuous  
c- simple                                      d- hard

d- having a bad impression

**B- Read the following text and do the tasks below:**

Sam walked into a cake shop to buy his daughter a birthday cake. It was about four o'clock and the store usually closes at five. So he should make his mind quickly. He began wandering in the shop watching the various kinds of cakes. The cakes looked very delicious and tasty so that it was difficult for Sam to choose. Time was passing but in vain. The chef said to Same "Come on. Hurry up, please, we are about to close the store." "No, wait please, I should choose the most suitable and delicious cake." Sam said sorrowfully. Sam's eyes kept moving from one refrigerator to another, but all the options looked so good and he couldn't make a decision yet. He wanted them all, but ended up with nothing because he couldn't choose. Sam's situation represents our life. The real danger is that we make no decision at all and end up going nowhere and doing nothing.

<p><b><u>A-Read the following text and do the tasks below:</u></b> <b>(50 marks)</b></p> <p>Thomas Edison was homeschooled by his mother's decision because his teacher believed that Edison was mentally ill. Thomas's mother lied about what was written in the school's letter, which Edison received, while she was reading it to her son saying "your son is a genius and the school is too small for him." Thomas had learning difficulties but that didn't make his mother frustrated. She wanted her son to be a scientist. At the age of 30, Edison worked in a number of fields created the basis for many technologies that we enjoy today. However he suffered through failure numerous times, he didn't quit and persisted in his work. After his mother's death, Edison found the hidden letter. He cried for hours and then wrote in his diary; Thomas Alva Edison was a mentally ill child that, by a hero mother, became a genius. Edison said: "My mother was a great woman, she believed in me and made me one of the greatest inventors."</p>	<p><b><u>B- Read the following text and do the tasks below:</u></b></p> <p>Some of successful people are with Down's Syndrome and they have proved that they have been really good at making decisions and they achieved their aims. The human brain remembers negative experiences more easily than positive ones. You likely know what makes you unhappy, but do you know what makes you happy? Psychologists suggest some habits that make people happier. For example, people whom form close relationships tend to be happier than those who do not. The number of friends we have isn't important. What matters is the quality of our relationships. Relationships that bring happiness usually involve the sharing of feelings, mutual respect, acceptance, trust, fun and empathy. Another example is the state of flow. When we are so interested in an activity we enjoy that we lose track of time, we are in a state of flow. People who experience flow in their work or hobbies tend to be happier. In conclusion, people who think positively by being grateful, aware and optimistic are more likely to be happy.

In 1912, the “Titanic” hit an **iceberg** on its first trip across the Atlantic. The Titanic was the largest ship that had ever travelled on the sea. It was carrying 2207 people, but it had taken on enough lifeboats for only 1178 people. Some of the survivors had been in the icy water for hours when they were saved. There was a great loss of life because nobody had prepared for such a tragedy. Nobody had believed that the Titanic could sink. The steamship company had thought that its ship would be completely safe in all situations. They had followed an old rule for the number of lifeboats, so they had supplied lifeboats for only half the people.

**Choose the right answer (a ,b, or c) to complete the following :**

- Titanic wasn't carrying ..... lifeboats on board.  
 a- not enough                      b- more than enough

Frane Selak was born in Croatia in 1929. He led a relatively unremarkable life as a music teacher. Selak's near-death experiences began in January 1962 when he was travelling by a train from Sarajevo to Dubrovnik. The train left its railway tracks and ended up in a river. Fortunately, an unknown person pulled him to be safe, while 17 other passengers drowned. The next year, Selak boarded a plane. Unfortunately, he was blown out of its door and luckily landed in a haystack and stayed alive. What happened to Selak seems to be far more dramatic than anything Hollywood could cook up.

Mariam was a teacher who wanted to motivate her students and make them do their best in the exam. So, she told them that she would give a simple and symbolic gift, which is a new pair of shoes, to the one whose marks are excellent. The children rejoiced over this challenge and they started writing diligently. After collecting the papers, the teacher was surprised to find that everyone had a full mark. She thought with her students of a suitable solution to whom she would give the gift. Each student wrote his name on a folded paper and put it in a box from which the teacher picked one. So, the paper would reveal the name of the winner. The teacher was touched when she found that all the students wrote the same name on all the papers so the gift would be given to a poor student they knew.

**A-Read the following text and do the tasks below:**

**(50 marks)**

Once, a king and a lazy man named Hani were very good friends. One morning, the king said, "Why don't you work to earn some money?" Hani said, "No one offers me a job. My enemies told everyone that I never do any work in time." The king said, "You can go into my treasury and collect as much wealth as you can, but you have to finish before sunset." Hani happily told his wife who said, "Go and get the gold coins and gems now." But Hani ate his lunch first and took a nap for an hour. Then in the late afternoon he went to the palace wasting time on the way. When Hani arrived at the palace, it was already sunset and the gates had been shut. Hani lost a golden chance because he hadn't learnt the value of time.

Time is precious! We should never waste it in any way. People can spend a lot of time doing various things, but they can never get back the time they had spent. That is why most of successful people consider time more important and valuable than money. We all should use our time in productive ways. Time management helps you to attain more with less effort. The proverb, "killing time is not a murder; it's a suicide" is applicable for those who don't understand the value of time and don't respect it. Time is the greatest gift of God. Therefore, we should know how to invest it.

Has anyone ever inspired you to change your life in a significant way that made you healthier, happier or more fulfilled? If so, then you understand how inspiration can create a positive difference in a person's life. There are many ways to inspire others, like showing people you care by questions such as "How are you today?" Keeping your promises is another way to inspire others. If you volunteer to help someone you need to keep your word. It is easy to criticise people, but that doesn't mean it's the right thing to do. Think about it: "How did you react when your intelligence was once insulted or made fun of it by someone?" Whether the criticism was justified or not, sure you would get upset. No one likes to be criticized. So if you don't have anything positive to say, don't say it at all.

If you look up at the stars, you might wonder if anyone is really out there. You might also wonder if they have found as many strange ways to communicate with each other as we have. The wish to communicate with the outer space has always been there in our minds. In the late 19<sup>th</sup> and early 20<sup>th</sup> centuries the idea of wirelessly sending and receiving waves through the air was developed. In 1901, engineer Nicola Tesla made the astonishing claim that he was receiving radio communications from Mars. His story was picked up and reported in the press. Till now, radio signals were detected to look for life or civilizations out in the galaxy but none was proved.

Body language refers to the nonverbal signals that we use to communicate. Our facial expressions and body movements convey volumes of information. For example, a smile can indicate approval or happiness. In some cases, our facial expressions may reveal our true feelings about a particular situation. While you say that you are yourself feeling fine, the look on your face may tell people otherwise. The expression on a person's face himself can even help determine if we trust or believe what he\she is saying. Facial expressions are also among the universal forms of body language. Some research suggest that deaf people may be especially skillful at picking up visual traits in the actions of others through their body language because they are trained on using sign and body language.

**B- Read the following text and do the tasks below:**

Language is considered a very complex form of communication that occurs among humans who use words while talking to express their needs and they cry and make faces when they want to express feelings. Animals also show signs of communication such as a dog wagging its tail when excited. However, do animals have their language? Researchers say that animals don't have a true language like humans. However, they do communicate with each other with sounds and gestures. There is no doubt that animals communicate with each other to one degree or another in response to different motivations such as hunger. In conclusion, human language is creative and consists of unique characteristics that give us the ability to engage in intellectual and logical ways.

**Write true T or false F: (50 marks)**

**A-Read the following text and do the tasks below:****(50 marks)**

It's not always easy to be a good son. Sometimes, you make a mistake and can't find a way to fix it. There are many ways to be good. One way is showing love to your family. Your parents love you and want to know what's going on in your life; such as your struggles with your studies and problems you're having with your friends. Your parents will appreciate that you value their opinion. So, don't be afraid to ask for their advice. A second way is to be kind to your siblings. It's sometimes difficult to get along with your siblings, but you should try to develop relationships with them. A third way is to do as well in school as you can. Your parents will be happy if you respect your teachers, do your homework and keep your grades up. The thing that will please your parents the most is to see their children growing into happy, responsible adults.

Most people are curious about different countries and their cultures. So, some tend to make friends from all around the world. To make friends, we only have to sign up to a pen pal website under the supervision of parents. When we create a profile, we will be asked to fill out basic details about ourselves; like our interests, the country we are from and our birth date. Through this website, we will be able to have conversations with new friends in different countries, so learning another language can help us build bonds with people that speak foreign languages. Being a nice person and willing to learn about new experiences will help you make friends wherever you go. If we have the chance to travel one day, we may meet these friends face to face.

**Write true T or false F:**

**A-Read the following text and do the tasks below:**

Some people think that autonomous vehicles will cause many problems that need to be solved before they are allowed to become a part of our daily lives. For example, driverless cars will increase unemployment. Thousands of drivers will lose their jobs if **(they)** are allowed to take over the roads. Another example, governments and cities will lose much money from parking, speeding **finer** and petrol taxes. And insurance companies will lose more than fifty percent of their income from car insurance. So autonomous vehicles may cause social chaos through unemployment, **financial** loss and lack of planning.

**Choose the right answer (a ,b, or c )to complete the following : (50 marks)**

- Many problems should be solved before driverless cars are ..... in our daily lives.

**B- Read the following text and do the tasks below:**

Last year, there was a huge wildfire in my village which destroyed it. I was feeling sorry for what had happened. Then, I held a meeting with my teacher and my friends at school and decided to work hand in hand to help our village. We are its loyal children, so we brought 1000 trees to plant in the forest. And because the forest in our village has suffered from loggers who want to destroy our natural resources, we decided that we should advise them to stop doing that to protect our village "United we stand, divided we fall". You have to be a hero and make a great decision for the sake of your homeland.

Mariam was a teacher who wanted to motivate her students and make them do their best in the exam. So, she told them that she would give a simple and symbolic gift, which is a new pair of shoes, to the one whose marks are excellent. The children rejoiced over this challenge and they started writing diligently. After collecting the papers, the teacher was surprised to find that everyone had a full mark. She thought with her students of a suitable solution to whom she would give the gift. Each student wrote his name on a folded paper and put it in a box from which the teacher picked one. So, the paper would reveal the name of the winner. The teacher was touched when she found that all the students wrote the same name on all the papers so the gift would be given to a poor student they knew.

We make thousands of decisions a day. Making a choice is easy. Choosing well takes knowledge and skills. You have many decision-making examples in daily life such as: deciding what to wear. Decision making is an on-going process in every aspect of life, large or small. The ability to make a decision and stick to it is the cornerstone of good leadership. Having critical thinking skills allows one to ascertain the problem and come up with a suitable and beneficial solution. Before taking a step, we must try to see where possible potholes are. This won't just make us stronger moving forward. It will also give us more determination and awareness about what we are deciding.

**Choose the right answer (a ,b, or c )to complete the following :**

Language is considered a very complex form of communication that occurs among humans who use words while talking to express their needs and they cry and make faces when they want to express feelings. Animals also show signs of communication such as a dog wagging its tail when excited. However, do animals have their language? Researchers say that animals don't have a true language like humans. However, they do communicate with each other with sounds and gestures. There is no doubt that animals communicate with each other to one degree or another in response to different motivations such as hunger. In conclusion, human language is creative and consists of unique characteristics that give us the ability to engage in intellectual and logical ways.

It's not always easy to be a good son. Sometimes, you make a mistake and can't find a way to fix it. There are many ways to be good. One way is showing love to your family. Your parents love you and want to know what's going on in your life; such as your struggles with your studies and problems you're having with your friends. Your parents will appreciate that you value their opinion. So, don't be afraid to ask for their advice. A second way is to be kind to your siblings. It's sometimes difficult to get along with your siblings, but you should try to develop relationships with them. A third way is to do as well in school as you can. Your parents will be happy if you respect your teachers, do your homework and keep your grades up. The thing that will please your parents the most is to see their children growing into happy, responsible adults.

**B- Read the following text and do the tasks below:**

On March 27, 2013, John Sweeney, a plumber from Ireland, started a Facebook page called Suspended Coffee. His message was simple: Buy a cup of coffee for a stranger, because an act of kindness can change a life and make a difference. Suspended coffee customers buy coffee, they also pay in advance for a cup to be given to somebody who couldn't afford it. You can buy it for anyone in need. It can be for the homeless person you pass by every day on the street, a stressed student in the middle of exams, a mother of children who can't afford coffee. It may be a well-dressed man whom you may not think from his appearance that he's in need but he may be in his third month of job hunting. It's not up to us to judge - if someone asks, then they're in need - no CV required.

**Write true T or false F: (50 marks)**

Has anyone ever inspired you to change your life in a significant way that made you healthier, happier or more fulfilled? If so, then you understand how inspiration can create a positive difference in a person's life. There are many ways to inspire others, like showing people you care by questions such as "How are you today?" Keeping your promises is another way to inspire others. If you volunteer to help someone you need to keep your word. It is easy to criticise people, but that doesn't mean it's the right thing to do. Think about it: "How did you react when your intelligence was once insulted or made fun of it by someone?" Whether the criticism was justified or not, sure you would get upset. No one likes to be criticized. So if you don't have anything positive to say, don't say it at all.

When we think about the future, we tend to assume that most things will stay the same. We are experiencing a technological progress every month now. The world is changing and the changes are very dramatic. Some recent researches have suggested that we need to think about the way we imagine future cities, and to focus on some forms of alternative energy such as solar power, which leads to environmental sustainability. We may want our future cities to prioritize environmental renewal. We need to prevent environmental degradation and stop the expansion of deserts. Future cities can collect water and use solar power to irrigate the dry land. Imagining these cities helps us understand how we want our future lives and tomorrow's world to look like.
