Question No. 2

What is the best concluding sentence for the paragraph below?
 Sometimes we are afraid of things that are not easy to happen. Only 25% of people died of bird flu between 2003 and 2009. Fewer than 100 people have ever died of mad cow disease. Despite this, people are afraid of these diseases. Also, it is very hard for you to hear about a plane crash on the news, even though there are thousands of flights around the world every day.

- To sum up, people are afraid of spiders, but most spiders cannot harm them.
- in conclusion, a lot of people are scared of getting sick.
- Unfortunately, many people have unnecessary fears.
- in addition, more people die in car accidents than plane crashes.

What is the best concluding sentence for the paragraph below?
Sometimes we are afraid of things that are not likely to happen. Only 256 people died of bird flu between 2003 and 2009. Fewer than 300 people have ever died of mad cow disease.
