In 1912, the "Titanic" hit an iceberg on its first trip across the Atlantic. The Titanic was the largest ship that had ever travelled on the sea. It was carrying 2207 people, but it had taken on enough lifeboats for only 1178 people. Not more than 651 of the passengers were able to get into lifeboats. Most of the passengers hadn't lived long; 1502 people had lost their lives. Nobody had prepared for such a tragedy. Nobody had believed that the Titanic could sink. The steamship company had thought that its ship would be completely safe in all situations. They had followed an old rule for the number of lifeboats, so they had supplied lifeboats for only half the people. The passengers had not yet received their lifeboats numbers, nor had they practiced lifeboat drill before the accident. Many of them had not even dressed warmly, for the ship had hit the iceberg late at night, and they did not believe they were in danger. The ship had already received 6 warnings on its radio when it struck the iceberg. Nevertheless, it had not changed its direction or its speed.

1- They didn't think that the ship was in danger because the passengers were good swimmers. T / F

2- The ship sank early in the morning. T / F

A poor family was living happily until the son felt severely ill. It was clear from the medical analysis and laboratory tests that he had got a tumor in his head. "Your son's condition is critical. He needs a miracle to survive.", the doctor said. After she had heard the doctor's words the little daughter rushed to the nearest pharmacy with the only pound she had in her money box. "Give me a miracle, please," she said putting the pound on the table. The pharmacist was busy talking to his brother. After a while he replied, "who told you I sell miracles?" She looked helplessly watching in despair. Suddenly the pharmacist's brother kneeled asking her, "tell me, sweetie, why do you need a miracle?" Without thinking, "I don't know, the doctor said that my brother needs a miracle for an operation not to die. "Is this pound enough?" "One pound is exactly enough", he answered with a big smile and a tender voice. "Could I see your brother?" This man was Carlton Armstrong, the famous nerve surgeon who performed the operation successfully and took one pound for it.
