Question No. 30

A temperature difference of 100 degrees Celsius is equivalent to a temperature difference of 180 degrees Fahrenheit. This means that a temperature difference of 3 degrees Fahrenheit is equivalent to:

- 1.7 degrees Celsius
- 26.7 degrees Celsius
- 16.7 degrees Celsius
- 36.7 degrees Celsius

Question No. 16

If a concave mirror of 10.0-cm focal length forms a real image at 50.0 cm from its surface, the distance of the object from the mirror is:

- 25.0 cm
- 40.0 cm
- 50.0 cm
- 12.5 cm

Total questions in exam: 40 | Answered: 2

Question No. 11

A concave mirror has:

- positive focal length
- zero focal length
- negative focal length
- no focal length

A
