Famous British author Charles Dickens was born on February 7, 1812, in England. Despite his parents' best efforts, the family remained poor. In 1816 the family moved to Chatham, Kent, where Charles and his brothers were free to roam the countryside and explore Old Rochester Castle. In 1822, the family moved to Camden, a poor district of London. During this period, the family's economic conditions deteriorated, and his father was imprisoned in 1824, when Charles was only 12 years old. As a result, Charles Dickens had to drop out of school and work in a boat-painting factory beside the Thames. Later, Dickens began his work as a freelance report writer in the London law courts. Only a few years later, he became a reporter for two major newspapers in London. In 1833, he began presenting skits to various magazines and newspapers under the pseudonym (Boz). **His** first stories were published in his first book in 1836, Sketches by Boz. Dickens' writing became so popular with readers that he began publishing his first novel, *Oliver Twist*, as episodes in a newspaper, telling the tale of an orphan living on the streets. The story was inspired by the feeling of Dickens, a poor child forced to make a living through his own wits.

Read and write (T) or (F) :

Our society is so competitive and focused on winning that we sometimes overlook the silver sides of failure. Failure can activate creativity and innovation, as well as conferring other benefits. Everyone can learn from failure, improving their resilience to the setbacks they will inevitably encounter in life. People who fail repeatedly develop persistence in the face of difficulties. Thomas Edison is remembered for the incandescent light bulb, among many other key inventions in the Age of Electricity. He is said to have failed with a thousand different filaments before hitting on a material that worked. Only people with extensive histories of failure could survive the difficulties that these individuals endured. With success, people keep on doing the same thing. When they fail, they are forced to adapt and change.

7-Failure can be the path to creativity and innovation.

8-People who usually fail are unable to overcome difficulties in the future.

9-Before Edison could invent the light bulb, he had failed a lot.

10-Failure makes people change and fit in.

A) Read and choose the correct answer (A, B, C or D)

Poetry was for centuries a mainstream art, and writers such as Milton and Donne created a world of beauty, of images and forms, as enduring as the painting of the Renaissance or the music of the classical age. Their work became part of the English consciousness. The story of English poetry could be seen in terms of a tension between formal mastery and individual expression, a tension in which the Romantic Movement was crucial in focusing attention on the personal vision of the poet. Shelley and Keats were exploring their own selfhood and their response to the world; **they** were no longer interested in perfecting existing models, or in being part of any school. Yet by the 20th and 21st centuries, Modernism and the waves of change brought about by world war also influenced poetry, resulting in works by poets with distinct voices who came to enjoy global circulation. Poetry may no longer enjoy this position of centrality in our culture, but the music of ideas that these poets developed is still among the most precious legacies that we have received from the past. This history explores that legacy and shows how vital and challenging modern poetry can still be.

Gender equality is at the very heart of human rights and United Nations values. Gender-based discrimination is prohibited under almost every human rights treaty. Despite much progress made in securing women's rights globally, millions of women and girls continue to experience discrimination and violence, being denied of their equality, dignity and even a life.

Promoting women's human rights and achieving gender equality are core commitments of the UN Human Rights Office. We promote women and girls' equal enjoyment of all human rights, including freedom from violence, reproductive rights, access to justice, socio-economic equality, and participation in decision-making. We do this by monitoring and advocating for women's rights, building capacity of stakeholders, and providing technical advice. We promote gender integration within the UN. The Arabian Nights, also known as *The Thousand and One Nights*, is one of the most famous collections of stories from the Islamic golden age. They are centred around the frame story of the Sultan Shahrayar and his wife Scheherazade. Since the 18th century, foreign cultures had characterised the epic by different literary responses caused by its **vague** authorial identity. As a result of its translation into many languages, *The Arabian Nights* has been influencing many world literary writers. Critics, therefore, have identified the utilisation of its literary techniques, such as repetitive designation, frame-story, and dramatic visualisation. *The Arabian Nights* is one of the richest sources for the magical turn in contemporary cultures by using ghosts, jinns or shape-shifting. It is seen as a book of exceptional literary values. The reception of *The Arabian Nights* in the world paves the way to better understanding of Arabic literature among the world's arts. In this sense, *The Arabian Nights* functions as a means of cultural "language" between east and west. The great significance of *The Arabian Nights* in literature is indebted to the distinctive use of the narration technique.

The Mona Liza is a painting by Leonardo da Vinci, one of the artists of the Italian renaissance, born in 1452. It is the most famous painting in the world. This painting is in the Louvre Museum in Paris, where millions of people visit it annually. The Mona Liza gained its greatest fame in the 20th century, when the genius artist, Da Vinci, was highlighted. The most important question is “who is Mona Liza, and what is her story?”

The painting contains no visible brushstroke, so the Mona Liza looks very realistic as if it were of flesh and blood. Is Mona Liza a real woman who stood before Leonardo to paint her, or is it an imagined image of an ideal beauty than a female face? To find out who Leonardo painted, the Louvre Museum put the painting for scientific scrutiny, using the latest technology. The painting was examined with x-rays, light and infrared imaging and other techniques to reveal its mysteries. The idea of the Mona Liza dates back to 1503, when the Italian silk merchant, Francisco Dell agreed with the artist, Da Vinci, to portray his wife, Liza Gioconda. Leonardo finished it in 1519, when he took it with him to France at the invitation of King Francois I, but he died before returning to Italy and delivering the painting to Francisco.

An interview is a chance for an employer to see if you're the right person for the job. It's also a chance for you to make sure the job and company are the right fit for you. There are different types of interviews which employers might use. You should prepare for the one you're attending. Your interview may only be with one person which is more common in smaller companies. Some interviews are with a panel of 2 or more people. To help make sure you're prepared, you should go over your CV or application form and think about things the employer may ask you about . You can prepare some examples that show you have the right skills, personal qualities and experience. You should also pick out something suitable and comfortable to wear. Plan to arrive 5 to 10 minutes before the interview starts. Unless you have a very good excuse and call ahead to rearrange, turning up late for an appointment will not be preferred. Using foul and inappropriate language is generally not acceptable at any time in the workplace, so it is an especially bad idea in an interview.

7-A job interview is important for both employer and employee.
