

1 of 75

It permanently stores software and data files.

- A Hard Disk
- B Ram
- C Rom
- D Alu

SUBMIT ANSWER

2 of 75

Computer Hardware is the actual physical equipment that performs dedicated tasks.

True

False

SUBMIT ANSWER

3 of 75

There are two types of software: System software and Application software.

True

False

SUBMIT ANSWER

5 of 75

It also enables us to enter text into computers by directly speaking into it, which is termed as 'Speech-to-text.'

- A Keyboard
- B Microphone
- C Mouse
- D Scanner

SUBMIT ANSWER

6 of 75

The Central Processing Unit (CPU) is also known as Microprocessor of a computer

True

False

SUBMIT ANSWER

7 of 75

_____ is a container housing most of the electronic components that make up a computer system.

- A** The System Unit
- B** Monitors
- C** Printers

SUBMIT ANSWER

8 of 75

Laptops are also called as Notebooks

T

True

F

False

SUBMIT ANSWER

9 of 75

Before instructions can be processed by a CPU,they are stored along with other data in computer memory

True

False

SUBMIT ANSWER

10 of 75

Computers perform tasks and repeat them thousands of times without getting bored or tired unlike human beings.

T

True

F

False

SUBMIT ANSWER

11 of 75

_____translate numbers, letters, and actions that we understand into a form that computers can process.

- A Memory
- B Input devices
- C Output devices
- D Hard disk

SUBMIT ANSWER

12 of 75

A _____ is a computer that has complex hardware configuration with high-level computational capacity.

- A Smartphone
- B Supercomputer
- C Microcomputer

SUBMIT ANSWER

13 of 75

It controls the movement of signals among CPU, memory, and other devices.

- A Random-Access Memory
- B Arithmetic-Logic Unit
- C Motherboard
- D Control Unit

SUBMIT ANSWER

14 of 75

Monitors and printers are two of the most common output devices used with a computer.

T

True

F

False

SUBMIT ANSWER

15 of 75

Personal Computer (PC) can be personalized and used according to an individual user either at home or in business.

T

True

F

False

SUBMIT ANSWER

16 of 75

It performs the basic arithmetical, logical, and input/output operations of a computer system

- A System Cabinet
- B Microprocessor
- C System Unit
- D Motherboard

SUBMIT ANSWER

✖ Incorrect

Question:

It performs the basic arithmetical, logical, and input/output operations of a computer system

Correct Answer:

Microprocessor

OK

17 of 75

A computer can be programmed and used for a variety of tasks that usually require human resource.

True

False

SUBMIT ANSWER

18 of 75

A Computer Mouse is a small hand-held pointing device which controls movement of a _____ on a display screen.

- A** Cursor or Pointer
- B** Microphone
- C** Keypad

SUBMIT ANSWER

4 of 75

A printer enables you to take the information processed by the computer on to paper.

T

True

F

False

SUBMIT ANSWER

19 of 75

It is an input device used to enter individual letters, numbers and special characters, as well as keys for specific functions.

- A Monitor
- B Keyboard
- C Mouse

SUBMIT ANSWER

20 of 75

Computers need specific step-by step instructions or directions to perform any task.

T

True

F

False

SUBMIT ANSWER

21 of 75

The interesting feature of a computer is that it is programmable

T

True

F

False

SUBMIT ANSWER

22 of 75

A _____ computer is a large central computer with more memory, storage space, and processing power, but is generally less powerful than a supercomputer.

- A Mainframe
- B Desktop
- C Laptop
- D Tablet computer

SUBMIT ANSWER

23 of 75

_____ is mostly used for scientific and engineering purposes, such as weather forecasting, bio-medical research and large-scale chemical analysis in laboratories, etc.

- A Microcomputer
- B Laptop
- C Supercomputer
- D Smartphone

SUBMIT ANSWER

24 of 75

The output of a Monitor is referred to as a soft copy.

T

True

F

False

SUBMIT ANSWER

25 of 75

Computer is capable to receive user instructions, process the instructions, and provide the desired results back to the user.

T

True

F

False

SUBMIT ANSWER

26 of 75

_____ is a Set of Instructions (Programs) that tells the computer what to do. It directs and controls operations of the computer so that the desired task is done.

- A A Software
- B Hardware
- C Hard disk

SUBMIT ANSWER

27 of 75

A _____ is an electronic device that accepts Input (data and instructions),

Processes it, and produces Output as required.

- A Computer
- B Mouse
- C Hard Disk
- D Keyboard

SUBMIT ANSWER

28 of 75

It is affordable and very useful for almost every business and individual for a variety of tasks.

- A** Microcomputer
- B** Mainframe Computer
- C** Super Computer

SUBMIT ANSWER

29 of 75

A computer system has various components that work together to accomplish a task.

True

False

SUBMIT ANSWER

30 of 75

A Computer is an electronic device that accepts Input (data and instructions),

Processes it, and produces Output as required.

True

False

SUBMIT ANSWER

31 of 75

ROM is non-volatile i.e., data in ROM is not lost when the computer is turned off.

T

True

F

False

SUBMIT ANSWER

32 of 75

RAM functions as a scratch pad memory to save the information temporarily.

True

False

SUBMIT ANSWER

33 of 75

Computer memory is not the storage space in a computer where data is processed and stored.

T

True

F

False

SUBMIT ANSWER

34 of 75

RAM is called temporary or volatile storage as everything in RAM is lost when the computer is switched off.

True

False

SUBMIT ANSWER

35 of 75

_____ is the communication medium for the entire computer

- A Printer
- B Mouse
- C Monitor
- D Motherboard

SUBMIT ANSWER

36 of 75

_____ is useful when a huge amount of data needs to be processed in a short time.

- A Supercomputer
- B Tablet computer
- C Laptop

SUBMIT ANSWER

37 of 75

_____consists of all the physical equipment that you see with a computer system.

- A Software
- B Hardware
- C Malware

SUBMIT ANSWER

38 of 75

The System Unit is also known as System Cabinet,

True

False

SUBMIT ANSWER

39 of 75

Whatever you do on a computer, a particular Software is required for that purpose.

True

False

SUBMIT ANSWER

40 of 75

Motherboard is also known as system board,

True

False

SUBMIT ANSWER

41 of 75

_____holds programs(instructions) and data currently required by the CPU to process.

- A ROM
- B ALU
- C RAM

SUBMIT ANSWER

42 of 75

_____ facilitate storing huge amount of data/information in highly compact devices.

- A Keyboard
- B Rom
- C Ram
- D Computers

SUBMIT ANSWER

43 of 75

A _____ is designed for use by one person at a time on a desk.

- A Mainframe Computer
- B Desktop Computer
- C Super Computer

SUBMIT ANSWER

44 of 75

A Mainframe computer is capable of supporting hundreds, or even thousands, of users simultaneously.

T

True

F

False

SUBMIT ANSWER

45 of 75

_____ is small in size and the most commonly used type of computer.

- A Super Computer
- B Microcomputer
- C Mainframe computer

SUBMIT ANSWER

46 of 75

Printer output is called a .

- A hard copy
- B soft copy

SUBMIT ANSWER

✖ Incorrect

Question:

Printer output is called a .

Correct Answer:

hard copy

OK

47 of 75

These are removable and rewritable storage devices, which allow you to copy, transfer and erase data several times.

- A** DVD'S
- B** CD-ROM
- C** Flash drives

SUBMIT ANSWER

✖ Incorrect

Question:

These are removable and rewritable storage devices, which allow you to copy, transfer and erase data several times.

Correct Answer:

Flash drives

OK

48 of 75

Government offices use computers to manage different office tasks like documentation, calculation, analysis, generate reports, online communications and various government transactions

T

True

F

False

SUBMIT ANSWER

49 of 75

_____are recordable only once, can be read several times, but can't be erased.

CD-RW

CD-R

CD-ROM

SUBMIT ANSWER

50 of 75

_____ are thin mobile computers in the form of a single hand-held device with a touchscreen display.

- A Desktops
- B Super computers
- C Tablets

SUBMIT ANSWER

51 of 75

It converts the information processed by the computer into visual images and displays it to the user.

- A Scanner
- B Microphone
- C Printer
- D Monitor

SUBMIT ANSWER

✖ Incorrect

Question:

It converts the information processed by the computer into visual images and displays it to the user.

Correct Answer:

Monitor

OK

52 of 75

Banks use computers to keep track of customers and their account information.

True

False

SUBMIT ANSWER

53 of 75

All hardware devices communicate with one another through the motherboard.

True

False

SUBMIT ANSWER

54 of 75

The CPU is like the brain of the computer.

True

False

SUBMIT ANSWER

55 of 75

_____allows erasing of previously recorded information and writing (recording) of new information on the same physical location.

- A CD-R
- B CD-RW
- C CD-ROM

SUBMIT ANSWER

56 of 75

A mic is commonly used with computers to record audio or communicate over the Internet

T

True

F

False

SUBMIT ANSWER

57 of 75

A _____ is capable to receive user instructions, process the instructions, and provide the desired results back to the user.

- A** Computer
- B** Keyboard
- C** Mouse

SUBMIT ANSWER

58 of 75

ROM chips contain instructions for booting of the computer.

T

True

F

False

SUBMIT ANSWER

59 of 75

Desktop Computer is also called as Personal Computer(PC),

T

True

F

False

SUBMIT ANSWER

60 of 75

The use of computers in _____ has made the travel easy, quick & economic.

- A GOVERNMENT SERVICES
- B EDUCATION
- C Airlines

SUBMIT ANSWER

61 of 75

They receive data from a computer and produce output through monitors, speakers, printers, etc.

- A Output devices
- B Input devices
- C Memories

SUBMIT ANSWER

✖ Incorrect

Question:

They receive data from a computer and produce output through monitors, speakers, printers, etc.

Correct Answer:

Output devices

OK

62 of 75

The_____ controls the rest of the computer system to carry out specified instructions

- A Arithmetic-Logic Unit
- B Motherboard
- C Control Unit
- D Random-Access Memory

SUBMIT ANSWER

63 of 75

_____ is used to scan information such as photographs and documents and translate it into a digital image.

- A Mouse
- B Keyboard
- C Printer
- D Scanner

SUBMIT ANSWER

64 of 75

_____ are the audio output devices, that play sound output from a computer

- A Printers
- B Speakers or Headphones
- C Monitors

SUBMIT ANSWER

65 of 75

A Computer _____ is a small hand-held pointing device which controls movement of a Cursor or Pointer on a display screen.

- A** Mouse
- B** Keyboard
- C** Monitor

SUBMIT ANSWER

66 of 75

These are used to distribute large software applications, video games, user guides, etc

- A RAM
- B CD-ROM
- C CD-RW

SUBMIT ANSWER

67 of 75

The Arithmetic-Logic Unit performs arithmetic and logical operations.

True

False

SUBMIT ANSWER

68 of 75

Mouse allows users to control and direct computers, select on-screen options, etc.

T

True

F

False

SUBMIT ANSWER

69 of 75

Government License Management Services is the use of computers in_____

- A AIRLINE SERVICES
- B EDUCATION
- C BANKING SERVICES
- D GOVERNMENT SERVICES

SUBMIT ANSWER

70 of 75

A Microcomputer, small enough to be carried and used anywhere keeping on laps, is known as a

_____.

- A Laptop
- B Mainframe Computer
- C Super Computer

SUBMIT ANSWER

71 of 75

Mainframes are used by large organizations for large-scale jobs

True

False

SUBMIT ANSWER

72 of 75

A _____ is an audio input device that converts sound signals into a form that can be processed by a computer.

- A Scanner
- B Mouse
- C Microphone
- D Keyboard

SUBMIT ANSWER

73 of 75

It is a flat circuit board where every hardware component, such as CPU, Memory, Hard disk, etc. are connected.

- A Printer
- B Mouse
- C Motherboard
- D Monitor

SUBMIT ANSWER

74 of 75

_____ is a permanent memory having built-in programs from the manufacturer.

- A ROM
- B ALU
- C RAM
- D HDD

SUBMIT ANSWER

✖ Incorrect

Question:

_____ is a permanent memory having built-in programs from the manufacturer.

Correct Answer:

ROM

OK

75 of 75

_____ is an electronic chip that carries out the instructions of a computer program.

- A Motherboard
- B System Unit
- C Central Processing Unit

SUBMIT ANSWER
