A- <u>Read the following text then choose the</u> <u>correct answer a, b, c or d</u> (50 marks)

Some people believe that autonomous vehicles will change our lives and cause many problems that need to be solved. Driverless cars will increase unemployment. Thousands of drivers will lose their jobs if **they** are allowed to take over the roads. This increase in unemployment could cause serious social problems. Companies, cities and governments will lose money. So, only some American cities have done long-term planning but most government officials and transport ministers are only worried about short-term problems. Finally, it is possible that autonomous vehicles will not benefit society if they are introduced too quickly. They may cause social chaos through unemployment, financial loss and lack of planning.

1. Autonomous vehicles------

a- will change our lives for the better.
b- will solve many problems in our lives.
c- will make our lives worse.

B- <u>Read the following text then write if the</u> <u>sentences below are true or false:</u> (50 marks)

An e-mail that starts with: "I love you" seems to be a wonderful message that surely attracts you and makes you excited to open and read it. You may think that it was sent by a close friend or a kind relative. However, the fact was completely different. This e-mail was a source of much trouble for me. It made me lose my job in a big company for selling electric goods. It was a dangerous computer virus sent from an unknown address while I was working. It destroyed all the files and documents saved on my computer which had the data of my company's customers. This caused a great damage for the computer so the manager decided to punish me. Now I'm unemployed. It was my mistake; I'll never open an e-mail from addresses I don't know.

- **6.** According to the text, "I love you" was an unsafe message.
- 7. The writer received the e-mail during his work.
- **8.** The writer received the e-mail from his close friend.
- **9.** The company's customers weren't affected by the writer's mistake.
