I- Read the following text then do the tasks below:

Plants are always in danger from animals which want to feed on them. If this happens, the plant can be damaged or even killed. So, because they are under constant attack from mammals, insects or birds, plants have developed ways of protecting themselves from these enemies.

Some plants which grow in dry climates, for example cactuses, store large quantities of water in their stems. To protect themselves, they have sharp thorns. Animals will hurt themselves if they try to get to the water from these plants. Stinging nettles can 'inject' painful substances into their enemies by means of the sharp hairs on their leaves. There are many plants which protect themselves by poisoning their enemies. In some cases the poison they contain is so powerful that it can kill any living thing which touches or eats them. The poison can be in the leaves, the seeds or berries, or in other parts of the plant. Some acacia trees in hot African countries are protected by ants which live permanently on their branches. If an animal starts to eat the tree's leaves, the ants attack it. Some plants, such as horse chestnut trees, are covered with a sticky substance which can prevent insects from eating them. Sometimes this substance is so strong that insects' feet or wings get stuck and they cannot escape.

Answer the following questions: (18 marks)

1. Why do plants need to protect themselves?
.....
2. What can happen to insects which attack horse chestnut trees?
3. Which plant is protected by a kind of insect?
.....

Find words in the text which mean the following: (10 marks)

4. sharp pointed parts that grow on a plant.....
5. to stop harm or damage.....

Rewrite these sentences about the text to correct the information: (12 marks)

6. Cactuses are found in wet areas and keep small amounts of water in their thorns.
.....
7. Stinging nettles have soft hairs on their stems, which help them attack their enemies.
.....

II- Read the following text then do the tasks below:

Antibiotics are incredibly useful and they have transformed modern medicine. However, there is a danger that we use them too much. The more we use antibiotics, the more the bacteria they fight get used to them and build up a resistance. There are many reasons why this might happen. Often patients stop taking a course of antibiotics when they start to feel better but before all the bacteria have been **eliminated**. This means that the bacteria that survive are the strongest and most resistant. These resistant bacteria will multiply and spread and, in future, will not be eliminated by the same antibiotics. There is a real danger that these new "superbugs" could cause diseases that antibiotics are unable to fight. It is very important not to overuse antibiotics in order to prevent **bacteria** from becoming too resistant. Try to avoid antibiotics unless strictly necessary and, if you are taking them, make sure you take everything **prescribed** and don't just stop when you feel better. You should always wash your hands, especially when you feel ill, to make sure you kill all of the resistant bacteria.

Choose the correct answer a , b or c : (12 marks)

- 8- Bacteria can become too resistant when.....
a. antibiotics fight them b. antibiotics are used
c. antibiotics are overused
- 9- A person taking a course of antibiotics should.....
a. take everything prescribed.
b. stop when he feels better.
c. stop before the bacteria are completely eliminated.

Match two of the underlined words from the text to the definitions below: (12 marks)

- 10- small living things, some of which cause illness
- 11- removed completely

Complete the following sentences with information from the text: (12 marks)

- 12- Antibiotics can be dangerous if they are used too much because.....
- 13- The bacteria surviving from an incomplete course of antibiotics can cause.....

III- Complete the following sentences by filling in the gaps: (18 marks)

We were driving home on the motorway yesterday evening
 14-we came across a burning car. A family
 15- standing by the side of the road. The mother
 was holding a sleeping baby in 16- arms.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

bacteria - others - protect - death - famous

Today, we can 17-ourselves against many
 illnesses that once meant 18-to thousands of
 people. This is because of the work of a 19-
 French scientist who suffered much in his own life so that
 20- might live.

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A:?

B: The sand gazelle can be found in the Arabian Gulf.

22- A:?

B: Its sand-coloured body helps it to camouflage.

23- A:?

B: It is in danger of extinction because of hunting.

24- A: What can we do to protect rare animals?

B:

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- In some countries, law protects the nests of rare birds.

(passive voice)

26- I'm very shy about talking in public.

(I wish)

27- I'm going out with my parents.

(reported speech with Ruba said)

28- My neighbour painted his own house.

(use causative verb)

VII- Complete the following sentences using clauses: (14 marks)

29- I'm really tired, but

30- When I leave school,

VIII- Choose the correct words in brackets: (18 marks)

31- Only certain kinds of people have (mathematics –
 mathematical) brains.

32- I wish the price of petrol would come (over-
 down).

33- After the storm there were a lot of (afraid –
 frightened) children and animals.

IX- Correct the verbs in brackets: (18 marks)

34- I(not sleep) at all for three nights.

35- In 1854, a quarter of the population of Ireland
(emigrate) abroad.

36- Until 1953, nobody
 (climb) Mount Everest.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- In space there is no gravity so the bones and
 muscles weaken very quickly.

Translate the following sentence into English: (8)

38- نحتاج أن نحمي بعض الحيوانات لكي لا تنقرض.

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic

- An account of a visit you made.
- A letter to a friend describing an interesting place (a tourist attraction) you have visited.
- A holiday you are going to spend with your friend's family.

I- Read the following text then do the tasks below:

Until 1953, nobody had climbed Mount Everest, the highest mountain in the world. Then in 1953, the mountaineer Edmund Hillary and the Nepalese Tenzing Norgay succeeded in reaching the summit. In the next thirty years there were other Everest 'firsts'. All these people had taken bottles of oxygen to help them climb, but Reinhold Messner and Peter Habeler wanted to climb using their natural ability, without oxygen. In 1975, they amazed people by climbing Gasherbrum, the 11th highest mountain in the world, without oxygen. When they started planning to climb Everest without oxygen, other climbers called them foolish. They warned them that the oxygen levels at the top were so low that breathing would be difficult, and that they would risk brain damage. However, they did not listen and made their first attempts in April 1978. After two failures, they nearly gave up but decided to make a final attempt. At these very high altitudes, with so little oxygen in the air, everything they did took much longer than normal. Every few metres, they fell down exhausted and had to rest. Eventually, at about 2 pm on May 8th 1978, they became the first men to reach the summit of Everest without oxygen.

Answer the following questions: (18 marks)

- 1- Who was the first to get to the top of Mount Everest?
.....
- 2- Why were Messner and Habeler warned not to climb Everest without oxygen?
.....
- 3- What was the greatest achievement of Messner and Habeler?
.....

Find words in the text which mean the following: (10 marks)

- 4- the highest point of something especially the top of a mountain
- 5- very tired.....

Rewrite these sentences about the text to correct the information: (12 marks)

- 6- At the top of low mountains like Everest, the air doesn't have any oxygen in it.
.....
- 7- Messner and Habeler reached the top at the second attempt without food or water.
.....

II- Read the following text then do the tasks below:

Bacteria are tiny cells that live everywhere on Earth, including in our bodies. They are responsible for spreading many types of diseases through infection. If the wrong types of bacteria are allowed to grow in our bodies, they can cause respiratory failure, digestive problems or dangerous skin diseases like gangrene. Numerous antibiotics have been developed that can protect us from, or even destroy, these bacteria. The first antibiotic to be discovered was penicillin and it remains one of the most useful and important antibiotics. A Scottish scientist called Alexander Fleming, who noticed it by accident, first discovered penicillin. While researching a certain type of dangerous bacteria, Fleming left some samples of bacteria on a bench in the corner of his **laboratory** for a month while he went on holiday with his family. When Fleming returned he noticed that **mould** had grown on one of his samples and that this mould had destroyed all the bacteria it touched. Fleming soon began to test the mould on other types of **disease** causing bacteria. He learned that the mould had an effect on many different types of bacteria; it could combat the bacteria that caused scarlet fever, pneumonia, meningitis and diphtheria, and that it was able to cure these diseases.

Choose the correct answer a , b or c : (12 marks)

- 8- We use antibiotics to.....
 - a. protect ourselves from bacteria
 - b. cause respiratory failure
 - c. spread diseases
- 9- The bacteria were destroyed.....
 - a. because they were left for a month
 - b. by the mould
 - c. by other types of bacteria

Match two of the underlined words from the text to the definitions below: (12 marks)

- 10- a soft substance that grows on food kept too long.....
- 11- a special room in which a scientist does experiments..

Complete the following sentences with information from the text: (12 marks)

- 12- Some bacteria are dangerous because they may lead to
- 13- The diseases that penicillin can cure are

III- Complete the following sentences by filling in the gaps: (18 marks)

One morning the people of Greenchester woke up to find that during the night their town ¹⁴⁻..... turned grey. The sky, ¹⁵⁻..... had always been blue, was grey that morning. Most of the plants had died ¹⁶⁻.....the birds had flown away.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

fire - boy - asked - behind - careful
Louis Pasteur was a bright ¹⁷⁻....., although his teachers said he was slow and always ¹⁸⁻..... the rest of his class. Louis was very ¹⁹⁻.....in everything he did. He wanted to understand all that he studied and he ²⁰⁻..... many questions.

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A :?
B : I moved to the city to go to university.
22- A :?
B : I've been living here for three years.
A : What are the disadvantages of the city?
23- B :
A :
24- B : I go to university by bus.

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- When did you get back?
.....
(reported question with Laila asked Fadia)
26- My father doesn't clean his car himself.
.....
(use causative have)
27- You waste too much paper.
.....
(I wish)
28- Elephants have changed the natural environment.
.....
(passive voice)

VII- Complete the following sentences using clauses: (14 marks)

29- I spilt tea on my homework, so
.....
30- We were driving home when
.....

VIII- Choose the correct words in brackets: (18 marks)

31- We need to protect some animals (because –so that) they don't become extinct.
32- (Mammals–Reptiles) have dry skin and cold blood.
33- They have given the (green – blue) light to the building of a new incinerator.

IX- Correct the verbs in brackets: (18 marks)

34- By 1854, a quarter of the population of Ireland (emigrate) abroad.
35- Omar passed all his exams. He (revise) non-stop for a month.
36- Where have you been? I(try) to phone you all morning.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- On Earth human beings are always moving against the force of gravity, with the bones and muscles supporting the body.

Translate the following sentence into English: (8)

38- تخزن بعض النباتات التي تنمو في مناخ جاف كميات كبيرة من الماء في سيقانها.

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic

An e-mail to a friend about a significant event that has changed your life in some way.

(Choose something that actually happened to you or use your imagination to make up a story).

I- Read the following text then do the tasks below:

The amount of sleep human beings need varies from individual to individual. Most adults need about 8 hours of sleep a day, but this number can vary greatly. Babies need about 16 hours a day while many teenagers need an average of 9 hours. As people get older, they tend to need less sleep. Exactly how much we need depends on several factors, including our age, our daily routine, the quality of our sleep and our genetic make-up. If you feel drowsy during the day, you need more sleep. You may think that you are sleeping for long enough, but these are some of the signs that you may need more: you cannot concentrate at school or at work; you find it difficult to get up in the morning; you are moody or irritable; you have memory problems.

Sleep provides our bodies with a chance to switch off. This allows us to recharge our mental and physical batteries and be ready for each new day. If we have slept well, we should wake up in the morning feeling alert and rested. People who have been deprived of sleep find it difficult to perform the simplest activities. When we fall asleep, our sleep can be deep and restful or light and shallow. Shallow sleepers wake up still feeling tired, while deep sleepers wake up refreshed.

Answer the following questions: (18 marks)

- Who seems to need the least sleep?
.....
- What are the effects of the lack of sleep?
.....
- Why is it important that we get enough sleep?
.....

Find words in the text which mean the following: (10 marks)

- give all your attention to a subject
- not having any or enough of something.....

Rewrite these sentences about the text to correct the information: (12 marks)

- How much sleep people need is the same for all people.
.....
- If we sleep well at night, we feel drowsy and tired in the morning.
.....

II- Read the following text then do the tasks below:

Caffeine was first extracted from plants in its pure form in 1820. But now, it can be made in the laboratory. Caffeine is an odourless, slightly bitter solid. It **dissolves** in water and alcohol and its crystals look like needles. When caffeine is removed from the source plant and reduced to its purest state, it forms a white **powder**. This powdered form of caffeine is very bitter, which is why many drinks containing caffeine also contain lots of sugar or other sweeteners.

Caffeine is used as a stimulant of the heart and nervous system in certain disorders. Caffeine may not be addictive in the classic sense, but the body does build up a tolerance over time. The stimulating effects of caffeine are caused by a central nervous reaction. The heart rate increases, blood vessels expand and the brain receives more oxygen. This effect can last up to an hour. Caffeine is a **stimulant** found in many plant species. The most common natural sources of caffeine are coffee, tea and cocoa, although cocoa contains a comparatively low amount.

Choose the correct answer a , b or c : (12 marks)

- As a solid, caffeine has
a. a nice smell b. a strong smell c. no smell
- The blood vesselswhen caffeine is taken.
a. widen b. become narrower
c. are not affected

Match two of the underlined words from the text to the definitions below: (12 marks)

- a substance that makes people more alert or excited
.....
- a dry substance in the form of very small pieces or grains

Complete the following sentences with information from the text: (12 marks)

- Many caffeinated drinks have sweeteners because
.....
- Caffeine can be found in

III- Complete the following sentences by filling in the gaps: (18 marks)

In 1975 my family left England on ¹⁴⁻ aeroplane. Five hours later we arrived in Damascus. My mother was worried about the plane journey ¹⁵⁻she is scared of flying. But there was no turbulence and ¹⁶⁻slept through the trip.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

world - mathematics - heat - strange - bread

Marie studied in a small room without ¹⁷⁻ or light. She lived on ¹⁸⁻ and tea most of the time, but all she ever thought of was ¹⁹⁻and science. This was her ²⁰⁻, and above all, she liked her experiments.

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A :

B : My house is located in a small village.

22- A:

B: It's a two-story big house.

23- A:

B: The walls are white.

A: Do you like living there? Why?

24-B:

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- I'm sure that bats aren't birds – they don't have feathers.

(use a modal verb phrase)

26- She didn't make the dress herself.

(use causative have)

27- 5,600 workers died while they were constructing the canal.

(passive voice)

28- Sand gazelles are protected from predators by camouflage.

(active voice)

VII- Complete the following sentences using clauses: (14 marks)

29- If you want to improve your health,

30- You should think carefully before

VIII- Choose the correct words in brackets: (18 marks)

31- Storms caused the (destroyed - destruction) of most of the crops.

32- A computer picked the names of the three winners (at – on) random.

33- Laila is very good at blowing her own (guitar – trumpet).

IX- Correct the verbs in brackets: (18 marks)

34- The natural habitat of kangaroos has been(destroy) by human activities.

35- We were driving home when we.....(come) across a burning car.

36- Before they reached the summit, they(fall) down every few metres.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- It is very important not to overuse antibiotics in order to prevent bacteria from becoming too resistant.

Translate the following sentence into English: (8)

38- في بعض البلدان يحمي القانون أعشاش الطيور النادرة

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic

- The biography of someone who has had an interesting or unusual life.

-A genius you know who deserves a national award.

- Someone you know well

I- Read the following text then do the tasks below:

We usually think that greenhouse gases are harmful, but without these gases the climate of the Earth would be like the climate of Mars: too cold for human beings to survive. Greenhouse gases, which include carbon dioxide and methane, keep the heat of the sun in and prevent our planet from freezing. However, for the last 200 years people have been using enormous quantities of fossil fuels like coal, gas and oil. When these fuels are burnt, they produce large amounts of carbon dioxide and this keeps more of the sun's heat in. The result is that the temperature of the Earth is rising year by year. This is leading to more extreme weather: high winds and heavy rain, which produce storms and floods. The problem is made worse by the fact that we are destroying the world's rainforests. Trees naturally consume carbon dioxide, but because there are fewer trees, more carbon dioxide is released into the atmosphere. Because of the increase in the Earth's temperature, the ice at the north and south poles is melting, and this is causing sea levels to rise. Eventually, many areas of land which are now on the coast will be flooded.

Answer the following questions: (18 marks)

1- What would happen if there were no greenhouse gases?
.....

2- How does the burning of fossil fuels affect the world's climate?
.....

3- Why do sea levels rise?
.....

Find words in the text which mean the following: (10 marks)

4- weather conditions in an area over a period of time.....

5- becoming liquid.....

Rewrite these sentences about the text to correct the information: (12 marks)

6- We should cut down trees because they produce carbon dioxide.....

7- Human beings can live on Mars because it is too hot.
.....

II- Read the following text then do the tasks below:

The modern world is defined by IT, or Information Technology. This term emerged in the 1970s, but it can in fact be traced back to World War II, when the military and early computer specialists worked together to develop electronics, computers and information theory. IT has a broad remit encompassing the design, development, implementation and management of computer-based information systems; particularly **software** applications and computer hardware. In short, IT deals with the use of computers and computer software to convert, store, process, transmit and retrieve information securely. IT comprises various disciplines: Data Management, Computer Networking, Software and Computer Engineering are crucial components. In recent years, the field has ballooned through advances in computer applications and the Internet, to include mobile telephones, computer games and video technology as well as new ways of sharing, processing and storing information electronically. The abbreviation ICT – Information and Communication Technology – which refers to electronic **communication**, is an increasingly familiar term. Computers have developed from large, bulky machines to highly sophisticated devices that fit in the **palm** of your hand. Computers are evolving rapidly.

Choose the correct answer a , b or c : (12 marks)

8.helped to develop IT.

- a. Military specialists b. Early computer specialists
- c. both (a) and (b)

9. Computers are developing.....

- a. slowly b. quickly c. gradually

Match two of the underlined words from the text to the definitions below: (12 marks)

10. the inner side of your hand

11. the programs that control what a computer is able to do

Complete the following sentences with information from the text: (12 marks)

12. The things that computers can do to information are to

13. Today computers can be so small that they can

III- Complete the following sentences by filling in the gaps: (18 marks)

On February 29th 1960, an earthquake hit the Moroccan city of Agadir. Although ¹⁴⁻lasted fifteen seconds, it was one of ¹⁵⁻most destructive earthquakes of the 20th century. When the rescue team arrived, many areas of the city had ¹⁶⁻destroyed completely.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

different - laboratory - three - born - questions

Tom Edison was ¹⁷⁻ with a curious mind. It made him ask himself ¹⁸⁻ while he was still very young. He stayed in school for only ¹⁹⁻ months because he was so ²⁰⁻ from the rest of the children there.

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A :?

B : The Eden Project is a living plant museum.

22- A :?

B: I visited it last year.

23- A :?

B: It was very exciting.

A: Why are plants important?

24- B:

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- What subject do you teach?

(reported question with I asked him)

26- Human activities are destroying their natural habitat.

(passive voice)

27- I feel sure that she has got good grades in her exams.

(use must)

28- I can't read very quickly.

(I wish)

VII- Complete the following sentences using clauses: (14 marks)

29- The city is noisy, whereas.....

30- I've been playing the piano since

VIII- Choose the correct words in brackets: (18 marks)

31- During the storm, three houses were destroyed and had to be (overbuilt – rebuilt).

32- (In comparison with – Instead of) village life, city life can be quite stressful.

33- Many people find out about the world by reading a (daily – day) newspaper.

IX- Correct the verbs in brackets: (18 marks)

34- In the future, sea levels(rise)

35- I (walk) through town, when suddenly I thought about my friend.

36- During the period 1970–2000, the number of migrants.....(rise) to 175 million.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- In space a tiny mistake can mean death within thirty seconds.

Translate the following sentence into English: (8)

38- الحيتان مخلوقات بحرية ولا تستطيع العيش في المياه العذبة.

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic

Arguments for and against: protecting wild animals

Or

Arguments for and against: keeping household pets

I- Read the following text then do the tasks below:

Desertification, which is the process in which productive land changes into desert, is an increasingly serious problem in over a hundred countries of the world. One billion people, out of a total world population of six billion, suffer from its effects.

Desertification usually occurs in dry areas where there is no rain and where the climate is harsh. In these places, the top layer of soil is destroyed so that the land can no longer be used for growing crops or grazing animals. This means that people who depend on the land for food have to move to 'greener' areas in order to survive. A proportion of the population may survive by moving, but others may die because of shortages of food and water. Although natural changes in the climate often start the process, the activities of human beings are often the real cause of desertification. Because there are growing numbers of people to feed, farmers tend to overcultivate their land, with the result that the soil becomes poor and unproductive. Other farmers overgraze their land and this permanently kills off grass and other plants.

Answer the following questions: (18 marks)

- 1- Why does desertification usually happen in dry places?
.....
- 2- What happens when the upper layer of soil is damaged?
.....
- 3- When can the soil become poor?
.....

Find words in the text which mean the following:

(10 marks)

- 4- what plants need to grow in
- 5- to stay alive - continue to live

Rewrite these sentences about the text to correct the information: (12 marks)

- 6- One fifth of the world's six million population suffer from desertification.
.....
- 7- People move to desert areas so that they can overcultivate their land.
.....

II- Read the following text then do the tasks below:

Naguib Mahfouz was an Egyptian novelist who became one of the most famous writers in the Arab world when he won the Nobel Prize for Literature in 1988. The award raised the profile of Arabic literature and Mahfouz's books were subsequently translated into many languages. Mahfouz wrote thirty **novels**, over one hundred short stories, dozens of film scripts and more than two hundred articles. His first novels explored Egyptian history and were intended to be part of a monumental cycle of thirty books, charting the entire history of Egypt. The project was never completed but Mahfouz often dealt with history, society and politics in his work. Mahfouz was an experimental writer and is credited with modernising Arabic literature. His epic Cairo Trilogy is a huge work of around 1,500 pages. Each volume is named after a street in Cairo: *Palace Walk*, *Palace of Desire* and *Sugar Street*. The trilogy charts the life of three generations of the Abd al-Jawad family, spanning the period from 1917 to the end of the Second World War. The books are remarkable because in them Mahfouz handles a huge cast of well-drawn characters with great **skill** and masters the Arabic novel form. Mahfouz was the third oldest living Nobel **Laureate** and the only Arabic language writer to have won the Nobel Prize.

Choose the correct answer a , b or c : (12 marks)

- 8- Mahfouz was different from other Arabic language writers in that.....
a. he wrote about history b. he won the Nobel Prize
c. his books were translated into other languages.
- 9- In *Cairo Trilogy*, he createdcharacters.
a. a large number of b. a few c. no

Match two of the underlined words from the text to the definitions below: (12 marks)

- 10- the ability to do something well.....
- 11- a person honoured with an award for a creative achievement.

Complete the following sentences with information from the text: (12 marks)

- 12- Mahfouz not only wrote novels but also
- 13- Mahfouz's books were translated into many languages after he.....

III- Complete the following sentences by filling in the gaps: (18 marks)

My younger sister has always had ¹⁴⁻.....talent for music. ¹⁵⁻..... started piano lessons at the age of three and her teacher was astonished ¹⁶⁻.....how quickly she learned to play well.

.....

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

wireless - received - saved - sea - trouble

One night during a bad storm at ¹⁷⁻....., two of the ships were in ¹⁸⁻.....and sent out calls for help. Marconi's wireless stations on the shore ¹⁹⁻.....the calls and sent help at once. All the men were ²⁰⁻.....

.....

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A:?
 B: Mount Everest is 8,848 m high.

22- A:?
 B: Hillary became the first to reach the summit of Mount Everest.

23- A:?
 B: He got to the top in 1953.
 A: What do you think of mountain climbing?

24- B:

.....

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- Have you seen my briefcase?

 (reported question with Hani asked Amer)

26- I'm not old enough to go to university.

 (I wish)

27- You can't take out a tooth yourself.

 (use causative have)

28- They opened Al-Ain's International Airport in 1994.

 (passive voice)

VII- Complete the following sentences using clauses: (14 marks)

29- I got very angry when

30- I've got a really bad toothache, so

.....

VIII- Choose the correct words in brackets: (18 marks)

31- Careless drivers can seriously (threat – threaten) the safety of pedestrians.

32- I love spending time with my (nearest and dearest – far and wide).

33- I'm so busy and I find it very hard to (run out of – keep up with) the news.

.....

IX- Correct the verbs in brackets: (18 marks)

34- In the 19th century, the most important economic activity in Ireland(be) agriculture.

35- I..... (play) tennis three times so far this week.

36- Most of Africa(have) a very hot, dry climate.

.....

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- Even well-designed landfills can pollute the soil and groundwater.

.....

Translate the following sentence into English: (8)

38- الهواتف الأرضية كبيرة وثقيلة بالمقارنة مع الهواتف النقالة.

.....

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic

A description of a photograph

A description of a building you know well.

An e-mail to suggest the most suitable place to live for a family of four

I- Read the following text then do the tasks below:

Road tunnels make car journeys shorter and faster. Some of the long tunnels were incredible engineering achievements. For example, the 11-kilometre-long Mont Blanc Tunnel between France and Italy massively reduced journey times between the two countries.

But in recent years, with the increase in freight traffic using tunnels, there have been some terrible accidents. When planners were designing the 24.5-kilometre Laerdal Tunnel in Norway, safety was one of their main concerns. The main factors which cause accidents in long tunnels are tiredness and claustrophobia. Drivers can easily fall asleep in tunnels because the view never changes. This can lead to accidents caused by vehicles driving into the sides of the tunnel. So experts did research to find out how they could make the 20-minute journey less monotonous. They decided to build the tunnel in four sections with "halls" between them. The halls are wider and higher than the main tunnel and have special lighting similar to sunrise. Drivers will feel refreshed as they drive through the halls. The halls have two other purposes related to safety: if there is an accident on the road ahead, drivers can turn round in the halls and return the way they came. There are also lay-bys in the halls where drivers can stop and rest.

Answer the following questions: (18 marks)

1. What is the main purpose of the halls?
.....
2. Why were the designers of the Laerdal Tunnel especially worried about safety?
.....
3. How long is the Laerdal Tunnel? How long does it take to drive through it?
.....

Find words in the text which mean the following: (10 marks)

4. extremely good, large or great – unbelievable.....
5. making a drawing or a plan of something that will be made or built.....

Rewrite these sentences about the text to correct the information: (12 marks)

6. The Mont Blanc Tunnel made the journeys between France and England longer and slower.
.....
7. The Laerdal Tunnel is divided into three sections, with walls between them.
.....

II- Read the following text then do the tasks below:

'Caf' means 'Caffeine': the coffee contains the full quantity of caffeine. 'Decaf' means 'Decaffeinated': the coffee contains 3% caffeine. 'Half Caf' means 'Half Caffeinated': the coffee is a **mixture** of 50% caffeinated and 50% decaffeinated.

Many people who like caffeinated coffee drink Half Caf because it reduces their caffeine intake while still packing a punch. It also allows people to drink twice as many cups of coffee, compared to those who drink Caf. Half Caf is a nice compromise for those who prefer the taste of caffeinated coffee but are sensitive to caffeine. In most methods of decaffeination, flavour **molecules** are separated from the beans along with caffeine molecules. An agent is used to bind the caffeine in order to remove it, and then the flavour molecules are returned to the beans through soaking. One method uses baths already **saturated** with flavour molecules to help preserve the flavour of the beans. How the beans are decaffeinated can have a significant effect on the coffee's taste.

Choose the correct answer a , b or c : (12 marks)

8. Decaf coffee contains caffeine.
a. a large amount of b. a small amount of
c. no
9. Baths are saturated with flavour molecules to help the flavour of the beans.
a. remove b. reduce
c. keep

Match two of the underlined words from the text to the definitions below: (12 marks)

10. the smallest units into which any substance can divided without losing their own chemical nature.....
11. holding as much water or moisture as can be absorbed.....

Complete the following sentences with information from the text: (12 marks)

12. Soaking is used in order to
13. Half Caf is a good beverage for people who.....

III- Complete the following sentences by filling in the gaps: (18 marks)

I ¹⁴.....born in the country, and for the first eighteen years of my life I lived there. My family's farm was ¹⁵.....the middle of nowhere, five kilometres from ¹⁶.....nearest neighbours and ten from the school and post office. -----

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

radium - woman - pay - honours - mind
Marie was a poor girl who worked to get money to ¹⁷..... for her lessons. She became the most famous ¹⁸..... scientist of her time. She did not ¹⁹..... working and she took little notice of the ²⁰..... that were given to her in later years.

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A :?
B : I was born in England.
22- A:?
B: I arrived in Syria seven years ago.
23- A:?
B: I work as a primary school teacher.
24- A: How often do you go to England?
B:

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- I got back very late last night.
.....
(reported speech with Fadia said)
26- Engineers had to make an artificial island.
.....
(passive voice)
27- Brides rarely make their own wedding dresses.
.....
(use causative have)
28- Our city doesn't collect rubbish often enough.
.....
(I wish)

VII- Complete the following sentences using clauses: (14 marks)

29- If the top layer of soil is destroyed,.....
30- City people often shop in supermarkets, whereas

VIII- Choose the correct words in brackets: (18 marks)

31- Damascus is famous (for – in) its historical monuments.
32- He said he didn't want to swim, but he changed his (tune – music).
33- He left court a free man because he had proved that he was (innocence – innocent).

IX- Correct the verbs in brackets: (18 marks)

34- James was nervous when he arrived at the airport. He..... (never fly) before.
35- Messner and Habeler.....(ignore) the warnings that other climbers had given them.
36- Before 1963, people (try) to reach the summit of Everest for many years.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)
37- Surgery is used to solve problems that cannot be treated with conventional medicines.

Translate the following sentence into English: (8)

38- الكثير من الناس مهتمون بمستقبل الحيوانات المعرضة للخطر.

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic
Should motorists who drive too fast in residential areas be banned from driving?

I- Read the following text then do the tasks below:

When we talk about animal migration we mean the movement of an animal from the place where it has been living to a different place and the return journey to that animal's original home. Most animal migrations are recurrent events which happen at certain times of the year. Animals usually migrate to find food or to raise their young. Incredibly, most migrating animals follow the same route every year and from generation to generation. Land animals may cross mountains or forge through rivers, while birds and insects travel extensive distances, sometimes across continents and oceans. Fish and other sea creatures may migrate halfway round the world. For example, the grey whale can travel as much as 20,000 kilometres. Many animals migrate to northern regions during the northern summer because the long summer days mean that there is always plenty of food. In the autumn, when the weather gets colder, many animals migrate south to find food and warmer weather (the southern summer). Some animals migrate every year, doing the two journeys in one year, but others migrate only if they need to find food or for more temperate weather.

Answer the following questions: (18 marks)

1. What is surprising about animal migration?
.....
2. When do many animals migrate northwards and southwards?
.....
3. Do all animals make the same number of migrations every year? Explain
.....

Find words in the text which mean the following: (10 marks)

4. having mild temperatures.....
5. living things – animals

Rewrite these sentences about the text to correct the information: (12 marks)

6. Most animals migrate to escape their enemies.
.....
7. All animals migrate at the same time every year.
.....

II- Read the following text then do the tasks below:

Every year, people throw away huge quantities of rubbish. Homes, businesses and other places in the community all produce substantial quantities of waste. Three methods of disposing of solid waste are to **bury** it, to burn it or to recycle it. Until recently, people often **disposed** of waste in open holes in the ground, called open landfills. But these open dumps were dangerous. Rainfall dissolved some of the chemicals from the waste, forming a liquid called leachate. Leachate could pollute the soil, run off into streams and lakes, or trickle down into the groundwater.

Incineration has some advantages over landfills. Incinerators take up less space and do not pollute groundwater. The heat produced by burning solid waste can be used to generate electricity. Unfortunately, incinerators also have disadvantages. For example, they release some pollution into the air. And although incinerators reduce the volume of waste by as much as 90 percent, some waste still remains, and this has to be disposed of somewhere. Incinerators also cost much more money to build than landfills.

Choose the correct answer a , b or c : (12 marks)

8. Open landfills are
a. not safe b. harmless
b. a good way of disposing of solid waste.
9. Incinerators arethan landfills.
a. cheaper b. more expensive
c. larger

Match two of the underlined words from the text to the definitions below: (12 marks)

10. destroying something by burning
11. threw away or got rid of

Complete the following sentences with information from the text: (12 marks)

12. There are ways of getting rid of solid waste, which are
13. The advantages of incinerators are that they.....

III- Complete the following sentences by filling in the gaps: (18 marks)

We usually think that greenhouse gases are harmful, ¹⁴⁻ without these gases the climate of the Earth would ¹⁵⁻ like the climate of Mars: too cold for human beings to survive. Greenhouse gases keep the heat of the sun in and prevent our planet ¹⁶⁻ freezing.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

old - happiness - enjoyed - burned - lamp
Edison worked hard and ¹⁷⁻his life, working for the pleasure and ¹⁸⁻of other people. Once when his laboratory ¹⁹⁻down and he lost everything, he said, 'I'll begin again. No one is ever too ²⁰⁻ to start working.'

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A :?
B : I went to Apamea on holiday.
22- A:?
B: I stayed there for two weeks.
A:
23- B: It was scorching hot.
24- A: How did you go there?
B:

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- If predators are threatening sand gazelles, they can run away.
.....
(passive voice)
26- I'm enjoying my new job.
.....
(report using Hiba said)
27- He isn't going to take his own photo.
.....
(use causative have)
28- My house is too small.
.....
(I wish)

VII- Complete the following sentences using clauses: (14 marks)

29- He had to pay a fine because.....
30- If I had a lot of money,
.....

VIII- Choose the correct words in brackets: (18 marks)

31- The date for the (complete – completion) of the dam project is 2009.
32- I think the new building is probably a school. They (must – might) be building a new school.
33- When there is no wind, we say the weather is (calm – stormy).

IX- Correct the verbs in brackets: (18 marks)

34- Three men(appear) in court tomorrow accused of dangerous driving.
35- The couple (recently have) a baby.
36- I spilt tea on the homework , so I
(have to) rewrite it.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- The Internet has transformed the way people communicate with each other and access information.
.....

Translate the following sentence into English: (8)

38- سمعت المحكمة أن الجريمة وقعت في ملعب تنس.
.....

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic:

The problem of climate change and suggesting ways in which ordinary people can reduce the amount of energy they use.

I- Read the following text then do the tasks below:

In 1953, Edmund Hillary became the first person to reach the summit of Mount Everest, the highest mountain in the world at 8,848 m. Hillary, from New Zealand, and his Nepalese climbing companion, Tenzing Norgay were part of the 9th British expedition to attempt to reach the summit. Over 350 people took part in the expedition that set out from Kathmandu in April 1953. Hillary and Norgay left the camp to climb to the summit on May 28th, and for much of the climb they had to overcome extreme cold, strong winds, dizzying heights and dangerously low levels of oxygen.

Temperatures were below freezing point and they were at constant risk of getting frostbite. The two men did not have the same sophisticated equipment that is used today, and the extremely high altitude could have caused serious medical problems. They made it to the top where they took the photograph that proved they had reached the highest point on earth. Hillary was a modest man and attributed his success to the whole team who supported him throughout the attempt.

Hilary was a born explorer and conquering Everest was the first in a series of achievements. He led an expedition to the South Pole and scaled several other peaks in the Himalayas.

Answer the following questions: (18 marks)

1- How high is Mount Everest?

2- What difficulties and risks did Hillary and Norgay encounter?

3- How do we know that Hillary was modest?

Find words in the text which mean the following:

(10 marks)

4- very great or severe

5- to try to do something

Rewrite these sentences about the text to correct the

information:

(12 marks)

6. Hillary and Norgay were part of the first American expedition attempting to conquer Everest?

7. Hillary was alone when he reached the top of Everest.

II- Read the following text then do the tasks below:

For a human being to go into space, survive and conduct important research, there needs to be careful organisation and planning. Daily life inside an airtight space shuttle or space station requires much more than just oxygen and heat. People require the correct **atmosphere**, a mechanism for removing the carbon dioxide, and a reliable means of day-to-day living in microgravity. If, for example, the carbon dioxide extractor doesn't work, then they will die. All the correct materials, food, oxygen cylinders and fuels have to be prepared correctly. All the machinery and **seals** have to work perfectly every second of every minute. The machinery is complex, yet it must not break down once; all the supplies are important, yet spares cannot be carried because of limited space. A small miscalculation in the planning and preparation of the space mission will probably mean the death of everyone on board.

Despite this, people can **survive** very successfully in space for months at a time. They can live in relative comfort, and they can carry out important work that could not be done anywhere on Earth. Any space mission involves enormous risks, but with a highly trained, skilled and hard-working team, people can be prepared for and can conduct space missions of great scientific importance.

Choose the correct answer a , b or c : (12 marks)

8 – In a space shuttle, air is

- a- allowed to pass through
- b – allowed to escape
- c – not allowed to escape or pass through

9- Spares cannot be carried in a space station because...

- a- there is not enough space
- b – they are easy to carry
- c-. they are not important

Match two of the underlined words from the text to the definitions below: (12 marks)

10- substances used to keep air out of something.....

11- to stay alive

Complete the following sentences with information from the text: (12 marks)

12- A small miscalculation in the planning of the space mission might cause

13- In order to conduct a successful space mission, astronauts should be

III- Complete the following sentences by filling in the gaps: (18 marks)

The authorities ¹⁴⁻just given the green light to the building of a new airport. The news has come out of ¹⁵⁻ blue and shocked many villagers. The thought of a new airport near ¹⁶⁻homes has made many of them see red.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

send - world - could - noise - big

People laughed at Marconi all through his life because he had ¹⁷⁻ ears. But it is possible that he heard sounds through those ears which other people ¹⁸⁻not hear. He worked all his life to ¹⁹⁻ those sounds back through the air to a waiting, listening ²⁰⁻

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A :

B : Damascus is located in the south-west of Syria.

22- A :

B: It has been inhabited for thousands of years.

23- A :

B: Tourists visit it to see its historical monuments.

A: Which country or city would you like to visit, why?

24- B:

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- My friend won't give me my CD back.

(I wish)

26- Rana didn't redecorate the flat herself.

(use causative have)

27- I'm not sure but I think some parts of the desert were covered in plants and trees.

(use a modal verb)

28- A third tunnel had to be built as an escape tunnel.

(active voice)

VII- Complete the following sentences using clauses: (14 marks)

29- Some people die in desert areas because

30- I felt very happy when.....

VIII- Choose the correct words in brackets: (18 m)

31- A country where the sun always shines has a dry (climate – weather).

32- These potatoes are too hard. We obviously (undercooked – overcooked) them.

33. Deir ez-Zour is an area of great (nature – natural) beauty.

IX- Correct the verbs in brackets: (18 marks)

34- I.....(go) to the dentist this morning. I had felt ill during the night.

35- I am hot. I..... (not have) a cold drink since breakfast.

36- Laila(revise) for the science exam recently.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- The more we use antibiotics, the more the bacteria they fight get used to them and build up a resistance.

Translate the following sentence into English: (8)

38- يحيى التمويه غزلان الرمال من المفترسين.

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic

A report describing some of the most important technological changes that have affected people's lives.

I- Read the following text then do the tasks below:

For over ten years in the 1970s and 80s Bernard Hinault, a very talented French sportsman, dominated the world of cycling. One of the fastest cyclists of his generation, he won over 200 races during his exceptional career and broke numerous records. During his career Hinault gained the nickname ‘the badger’ on account of his reputation for being extremely competitive and dedicating himself fully to each race. A famous rivalry existed between Hinault and another elite cyclist, Greg Lamond. During the 1986 Tour de France, the two men fought continuously to win the championship, with Lamond emerging as the eventual winner. Following his retirement in 1986, Hinault did not lose any of his dedication to the world of cycling. Hinault has written several books telling the story of his rise to success; they also include details of the difficulties he had encountered on the way: the crashes, injuries and problems. As one of the best cyclists the world has ever seen he was encouraged to write a book for aspiring professional cyclists, giving them tips and realistic advice about how to reach the top. His story shows that becoming the best in any field is a challenge that requires a lot of determination and dedication.

Answer the following questions: (18 marks)

- 1- What was Hinault called and why?
.....
- 2- Who was Greg Lamond?
.....
- 3- What lesson does Hainault's story teach us?
.....

Find words in the text which mean the following: (10 marks)

- 4- group containing the best / most skilled / most experienced
- 5- hoping or aiming for a certain thing

Rewrite these sentences about the text to correct the information: (12 marks)

- 6- Hinault won the Tour de France in 1886.....
- 7- Hinault wrote books about driving

II- Read the following text then do the tasks below:

Caffeine, particularly in coffee, has been studied closely to determine where it may be of benefit, and where it may cause undesirable effects. Caffeine is a stimulant. In healthy adults this means that the effects of caffeine will tend to make one feel more alert and less sleepy, and will temporarily boost metabolism. Yet because it is a stimulant, one of the effects of caffeine is a let-down a few hours after intake. If a person drinks coffee or other caffeinated **beverages** all day, they are unlikely to feel this drop in mood or alertness.

The person who drinks caffeinated beverages in the morning only, however, may find themselves feeling more tired as the day progresses. When taken in small amounts, caffeine increases the circulation and is considered harmless for most people. When taken in large amounts, however, it causes nervousness and loss of sleep. The use of caffeine also may cause rapid heart rate, increase in urination, headaches and **digestive disturbances**. A lethal dose of caffeine is about 10g. Because caffeine is a mild diuretic , the effects of caffeine upon those who do not have sufficient fluid intake may include mild dehydration. If one regularly indulges in caffeinated beverages, fluid intake of water or juices should be increased.

Choose the correct answer a , b or c : (12 marks)

- 8- When a person drinks coffee all day, it is ----- that they feel a let-down.
a- probable b- not probable c- impossible
- 9- A dose of 10 g of caffeine.....
a- makes a person more alert b- kills a person
c- is harmless

Match two of the underlined words from the text to the definitions below: (12 marks)

- 10- types of drink
- 11-connected with breaking down food in the stomach

Complete the following sentences with information from the text: (12 marks)

- 12- Caffeine may be beneficial, but it may
- 13- Fluid intake should be increased when.....

III- Complete the following sentences by filling in the gaps: (18 marks)

Sofia arrived in England from Poland seven years ¹⁴⁻..... Since then she has worked as ¹⁵⁻..... primary school teacher. She has been back to Poland several times to see her family, ¹⁶⁻..... she has never wanted to stay there.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

safe - body - painful - weaker - brought

A woman ¹⁷⁻..... Pasteur her son, who had been bitten by a mad dog. In those days, such a bite meant a slow and ¹⁸⁻.....death. He got the germs out from the dogs' mouths and used them to make a ¹⁹⁻..... form of the same germ. He put these weak germs into the boy's ²⁰⁻..... fourteen times and he lived!

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- A :

B : My house has two storeys.

22- A :

B: It is about five miles from the sea.

23- A :

B: It overlooks a luxurious swimming pool.

24- A: What does it look like?

B:

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- Did you enjoy your holiday?

(report using Laila asked Fadia)

26- Modern criminals are using computers to help them commit crimes .

(passive)

27- My mother dyed her own dress blue.

(use causative have)

28- People drive too fast in the city centre.

(I wish)

VII- Complete the following sentences using clauses: (14 marks)

29- I couldn't go shopping because

30- Everything was going very well until

VIII- Choose the correct words in brackets: (18 marks)

31- We usually (do – make) the shopping at the weekend.

32- Some people are moving out of their homes on the coast (in order to – so that) escape future floods.

33- She's very (skill – skilful) at drawing.

IX- Correct the verbs in brackets: (18 marks)

34-(you ever learn) to play a musical instrument?

35- They finished making Leila's dress a week before the wedding. They(make) it for over a month.

36- Tea(grow) on bushes.

X- Translation: (18 marks)

Translate the following sentence into Arabic: (10)

37- Clean, sterile items that are free of germs are kept separate from contaminated items.

Translate the following sentence into English: (8)

38- دمشق لها تاريخ غني وتعتبر أقدم مدينة في العالم.

XI- Composition: (50 marks)

Write a composition of no less than 80 words on the following topic

- A response to an advert for a place on a Syrian expedition to the summit of Mount Everest.
- What do you think about people who risk their lives climbing mountains?

I- Read the following text then do the tasks below:

The Eden Project, which opened in the year 2000, is a living plant museum in the countryside in the south-west of England. It is a very popular attraction and millions of visitors come every year to see plants from all over the world growing in this special environment. Some plants grow outside, but many are in specially-built domes, called 'biomes' where the temperature and humidity are carefully controlled. The biomes are like giant greenhouses and one, the Humid Tropics biome, is the largest greenhouse in the world. It is over 55m high and 200m long and contains many thousands of exotic plants not found in England. One of the purposes of the project is to show how dependent human beings are on plants and to educate people on the importance of preserving our natural environment. Aside from the plant life, the Eden Project has fascinating interactive exhibits for people of all ages. Many of the visitors are groups of school children and the Eden Project combines educational value with scientific interest and a huge variety of spectacular plant life.

Answer the following questions: (18 marks)

1- Where is the Eden Project?
.....

2- What is the educational purpose of the Eden project?
.....

3- Why do people visit the Eden Project?
.....

Find words in the text which mean the following:

(10 marks)

4- unusual – foreign.....

5- liked or visited by a lot of people

Rewrite these sentences about the text to correct the information: (12 marks)

6- Only few people visit the Eden Project every year.
.....

7- One of the purposes of the project is to show how plants depend on humans beings.....

II- Read the following text then do the tasks below:

Not many people work in space at any one time, as crews on a space station are always as small as possible. It means that there are very few people to do all the technical, scientific and domestic jobs. Everyone shares the huge workload and the tiny living area. The crew are all highly qualified scientists who have important work to do. But they also live in a small area that must be kept clean and they need to prepare food, maintain the systems on board and still fit in enough time between their main jobs to get enough sleep and exercise. The astronauts carry out the cleaning in between their main duties; they clean the meal area, change the air purification system's filters, collect the rubbish and wipe down the walls and floors. Each astronaut also has maintenance roles, looking after important systems. On board the ISS, the environmental control and life support systems control elements such as atmospheric pressure, oxygen levels and water recycling. Often, maintaining these important controls involves working on the outside of the space station in a space suit which itself has to protect the astronaut from space and provide the means for a human to live for a few hours (such as oxygen).

Choose the correct answer a , b or c : (12 marks)

8- The technical and domestic jobs on a space station are done by

- a. all astronauts b. one astronaut c. robots

9- Astronauts work

- a. inside the space station only
b. outside the space station only
c. inside and outside the space station

Match two of the underlined words from the text to the definitions below: (12 marks)

10- the removal of dirty or harmful substances

11- very small

Complete the following sentences with information from the text: (12 marks)

12- One of the cleaning roles of an astronaut is.....

13- The number of astronauts in a space station is

III- Complete the following sentences by filling in the gaps: (18 marks)

Damascus ¹⁴..... located in the south-west of Syria. It has a long history and was occupied ¹⁵.....many peoples before becoming the capital. Damascus is ¹⁶..... popular tourist destination.

IV- Fill in the spaces with words from the list. Use each word once only: (24 marks)

death - safe - vaccinations - become - fight
 Pateur helped farmers to ¹⁷..... germs that were killing their chickens. He made the germs weak and fed the chickens with the weak germs. They did not ¹⁸..... ill; their own bodies went to work against the germ. Then they were ¹⁹..... from any more attacks from the same germ. Thus began Pasteur's plan of ²⁰.....to stop illness.

V- Complete the following dialogue by writing suitable questions or answers. Write at least three words for each question: (32 marks)

21- **A:**?
B: I get up at seven o'clock.
A: How much sleep do you get each night?
 22- **B:**
 23- **A:**?
B: I feel alert and rested in the morning.
 24- **A:**?
B: Yes, I get enough sleep.

VI- Rewrite the following sentences as required in brackets: (32 marks)

25- Can you take me to the airport tomorrow?

 (reported question with Bashar asked Rakan)
 26- She couldn't mend her glasses.

 (use causative have)
 27- We have to start work very early.
