

WRITING QUIZ VOCABULARY

In this document I have included some words that I have seen commonly used in your writing which can be used during your writing quiz. I have noticed that spelling mistakes are quite common, so please try to practice some of these words and check if you can spell them correctly. I have tried my best to include words that would be related to general medical topics.

Try your very best to spell the words correctly in the exam, all the best girls!! 😊
