		The cat is 20 years old.		
		Ollie is a parrot.		
		Marla is a turtle.		
		The dolphin's name is Flipper.		

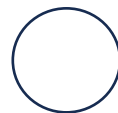

Match the main ideas in the text with its paragraph:

1. Flipper is a dolphin, and he is 5 years old. That is young for a dolphin. It is the age of an 18-year-old person. Flipper is a baby in human years, but he's a teen in dolphin years.

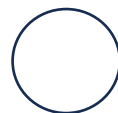

Rabbits are mammals, which are warm blooded animals.

The animals have different lifespans

2. Marla is old—even for a turtle. She's 95.

Turtles live a lot longer than most other animals.
