Working as a Student

Section I

One of the important things we learn while growing up is that finding a job plays a huge role in our lives. A job gives us independence as well as a way of making our own living. Earning your own money is always a good thing and there is no better time to start doing this than as a student.

Section II

When students live away from home it can be very expensive for their parents to support them. Paying for accommodation, books, food, and bills costs a great deal of money. Because of this, many university students find a part-time job while they are studying. It doesn't really matter what the job is, as long as it fits in with their program and earns them some extra cash. It

Medicine and Sports

Section I

Most major soccer teams have a number of medical experts who work closely with the players to ensure that they are in the best possible condition. We don't often see these people. The medical staff works closely with the manager and the players. When a player is injured, they work hard to get him back on the field as quickly as possible. They work with specialist doctors and physiotherapists. Players earn thousands of dollars a month and each day without them means money lost for the team.

Section II

There are also sports psychologists. Sometimes a player's problems are psychological rather than physical. For example,

✓ when a player is injured during a game

when a goalkeeper makes a mistake
