A- Read the following text then choose the correct answer a, b, c or d: (50 marks)

Some people believe that autonomous vehicles will cause many problems that need to be solved before they are allowed to become a part of our daily lives. First, driverless cars will increase unemployment. Thousands of drivers will lose their jobs if autonomous vehicles are allowed to take over the roads. Truck drivers, delivery drivers, taxi drivers and many other kinds of drivers will lose their jobs. This increase in unemployment could cause serious social problems. Second, companies and governments will lose money. For example, insurance companies now get about fifty percent of their income from car insurance. Governments and cities, too, will lose much money from parking, speeding finer and petrol taxes. It is possible that autonomous vehicles will not benefit society if they are introduced too quickly. They may cause social chaos through unemployment, financial loss and lack of planning. It is important that these issues are addressed before autonomous vehicles are allowed on our roads.

B- Read the following text then write "T" for true sentences and "F" for false ones: (50 marks)

In our daily life, we have only twenty-four hours in a day. Therefore, we cannot do everything in one day. This creates the need to manage our time. Time management is necessary in every field in our life. It will help us to complete all our tasks efficiently and do them on time. If we waste time on useless activities, we will have less time for useful and important ones. The more we understand the value of time, the more we can gain experience and develop skills over time. Nowadays, we are giving more time to social media like Facebook, twitter, Instagram and other apps; these are time taking applications. That's why we should think about how much time we are wasting on these things and use this technology wisely for learning and improving our characters as well. Time is all we have and you may find one day you have less than you think.
