vacation pay term academic busy break study period fully test uniforms attend

The academic year at my high school is from September to June. The fall term ends in January.

We take exams for a week, and then the spring term begins. Most students attend school from 8:00 to

3:00, but some students don't have a full day of classes. Some students have a study period. They work on

homework in the library or computer lab. Other students just relax during their break time. Our classes

are long. They last for 70 minutes, but we don't have the same classes every day. We don't really have

school uniforms, but everyone has to wear a white shirt and blue pants or a blue skirt. We have

vacation from June to September.
