- D. Method

#### Reading Skill:

**Organic** food is very popular these days. It can also be very **expensive**. Some organic food costs twice as much as non-organic food. Parents of young children, and even some pet owners, will pay high prices for organic food if they think it's healthier. But many others think organic food is just a **waste of money**.

Read the text above and answer the following question:

20-What is the writer's purpose?

- A. To make the reader laugh
- B. To describe different kinds of food
- C. To give information about organic food
- D. To explain why people eat organic food

21- What is the main idea of the paragraph?

- A. **Organic** food is very popular these days.
- B. It can also be very **expensive**.
- C. Organic food is healthier.
- D. Organic food costs twice as much as much as non-organic food.

#### Identify cause- effect relationship in the reading.

22- People are ready to pay for organic food because they think \_\_\_\_\_

- A. It's popular.
- B. It's expensive.
- C. It's healthier.
- D. It's a waste of money.

Read the following paragraph and answer the questions that follow:

Some people think organic also means "locally grown", and originally this was true. But over time organic farming has become big business, with many organic foods now being grown by large agricultural companies that sell their products far from where they're grown. **Processed** food made with organic **ingredients** has also become more popular. At first, only small companies **produced** these products. But as **demand** overtook **supply**, big food companies that had been selling non-organic products for many years also began selling organic products. Small organic food companies found it difficult to compete with these big companies, and many didn't **stay in business** much longer.

23- The word 'produced' in this text means \_\_\_\_\_.

- A. cost
- B. grow
- C. Sell
- D. Buy

24- The word 'demand' means \_\_\_\_\_.

- A. Consume
