### II. Reading Comprehension (1 mark each)

### Read the following passage, and then answer the questions below:

Our goal is something that you want to achieve. To do that, you should decide what that goal is. Do you want to pass an exam? Do you want to be a doctor? Do you want to be wealthy? Think about what you want and decide on your goal. You should write your goal on a piece of paper. Put your goal poster on your wall and look at it every day. Then decide what you have to do to achieve your goal.

Some people never reach their goal because they think it is impossible. You should think positively and this is the key step in achieving your goal. Don't think "the exam is difficult and I will probably fail it". Instead, you should think "The exam is difficult, but I have

worked hard and will pass it". People who think negatively seldom reach their goals, so be positive!

We are most successful at things we enjoy. So you should try to enjoy your work. Look at your goal poster.

Think how happy you will be when you have reached your goal. Think about that happiness while you are working and you will enjoy your work.

**Alicia** Smith and **Jenna** Greer are identical twins who, at birth, were orphaned and adopted by different families. Incredibly, they grew up just 25 kilometers apart from one another, with each believing .that she was an only child

Some would say that the story of their recent accidental reunion was coincidence. Some would say it was meant to be. Upon graduating from high school, each of the girls chose to study psychology at universities only 2 kilometers apart. While attending university, Jenna kept noticing that strangers would wave and say hello to her. Meanwhile, Alicia's friends complained that she sometimes didn't wave back at them when they saw her on the street. Listen to the young women tell the story of how they .discovered one another

**Alicia**: A friend of Jenna's came to a study meeting at our dorm when I was twenty. She was shocked by how much I looked like a friend of hers. Of course, that friend was Jenna. She kept telling me that I had to meet this friend. She showed me a picture of .Jenna and gave me her email address

**Jenna**: After exchanging a couple of emails and talking to our parents, we discovered that we were sisters. So we made plans .to meet

Alicia: The first meeting was really emotional. I thought my heart was going to thump out of my chest. It was strange seeing my ,face on someone else's body. And as soon as we started talking .we both noticed how similar our accents and mannerisms were Jenna: As we got to know each other, we found out that we'd lived lives that were, in many ways, incredibly similar. It's uncanny how much we have in common. Both of us have been painting since we were five, we both liked horses, we both planned to study teaching, and we had both volunteered at the community .support center

Alicia: But I think the strangest thing of all is that we even have the same recurring dream. One time when Jenna and I were talking, she described the same dream that I've had since I was a .child. I was so freaked out that I just dropped the phone Jenna: I really believe that we are meant to be together. I think it was supposed to happen now. Not when we're older, or when we were younger and wouldn't have understood. This way we can enjoy each other for the rest of our lives.
